From September 2018, he began his master's studies at the prestigious Berklee College of Music in the field of contemporary music performance. Co-founder of the freejazz collective P.E. Quartet, with which in 2018 he released an album titled "Whatever". Leader of the music concept team Jerry & ThePelcianSystem with which in May 2019 releases its debut album. In his previous career, the musician has played on many Polish and international stages, including: at music festivals: Jazz Jamboree, Ferrara Buskers Festival, JazzJantar, Jazztopad, in the European Parliament in Brussels as part of EXPO2017. He was educated in such personalities as Greg Osby,Michał Kulenty and Zbigniew Namysłowski. He is an active musician and collaborated with musicians from around the world, including Thomas de Perquery and Nitin Sawhney. He is constantly looking for the most varied sounds. His style is deeply rooted in the European avant-garde.

Jerry&ThePelicanSystem

Jerry & ThePelicanSystem is a project of Jerzy Mączyński. It is attended by musicians from different backgrounds, playing on a daily basis in different formations.
The main assumption of the band is to create their own music based on the leader's multi-colored  compositions.
The selection of musicians allows  to break patterns, create new forms and innovative solutions.
The enigmatic name allows the recipient to feel the climate of absurdity, which is an inherent element of the project.
