

Water

Verse 1

*Speak to me with your silence
Words say less than your energy
In fact don't say a thing at all
Tell it all in the way that you look at me*

Chorus 1

*You remind me of water
Peaceful yet powerful
Could drown me in you captivating waves
Instead you cleanse my soul*

Verse 2

*I knew you before I even met you
'Cause our souls have met before
Something happened along the way
That left us wanting more*

Chorus 2

*So let's flow like water
Gentle yet dangerous
Dive into the depths of one another
Let the currents take us*

Instrumental break

Chorus 3

*So let's flow like water
Gentle yet dangerous
Dive into the depths of one another
Let the currents take us
You remind me of water
Peaceful yet powerful
Could drown me in you captivating waves
Instead you cleanse my soul*
