

## "I Wish"

### Verse 1

*I woke up this morning  
With you on my mind  
Must have had a dream about you baby  
Wouldn't be the first time  
And I swear you were there  
But you're gone when I open my eyes  
There's not a thing I wouldn't give  
To see your face in the morning light*

### Chorus

*And I wish you could hear  
The way I talk about you  
And I wish you were near  
Just wanna be around you*

### Verse 2

*I wanna make you breakfast baby  
Whatever you like  
And I ain't a chef but I know  
I'll feed that appetite  
Don't usually have dessert in the morning  
But today we might  
And you can call into work  
'Cause I want you here from morning to night*
