

# Natural Order

Art Installation

4 HD Channels

2 Audio Channels

*Proposes that reality is natural chaotic and by forcing patterns and a sequential arrangement of information, we catalyze a predictable environment and generate stress.*

# Description

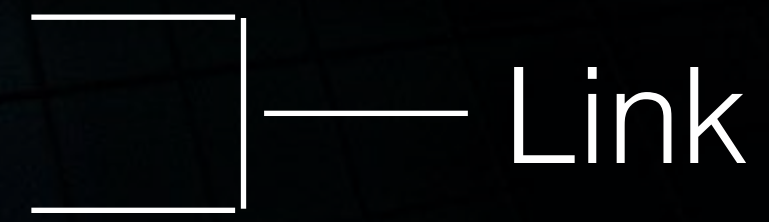

## Conceptual

Representing with an experimental animation different characteristics of Chaos.

- Sensitivity to Initial Conditions (***Butterfly Effect***)
- Scientific Reductionism does not apply (***not everything can be broken down to its simplest form***)
- Strange Attractors (***mathematic function that chaotic systems follow***)

# Why?

- Personal Interests
  - Background in Physics
  - Background in Psychology
  - Personal cognitive behavior
  - Artistic endeavor

Link

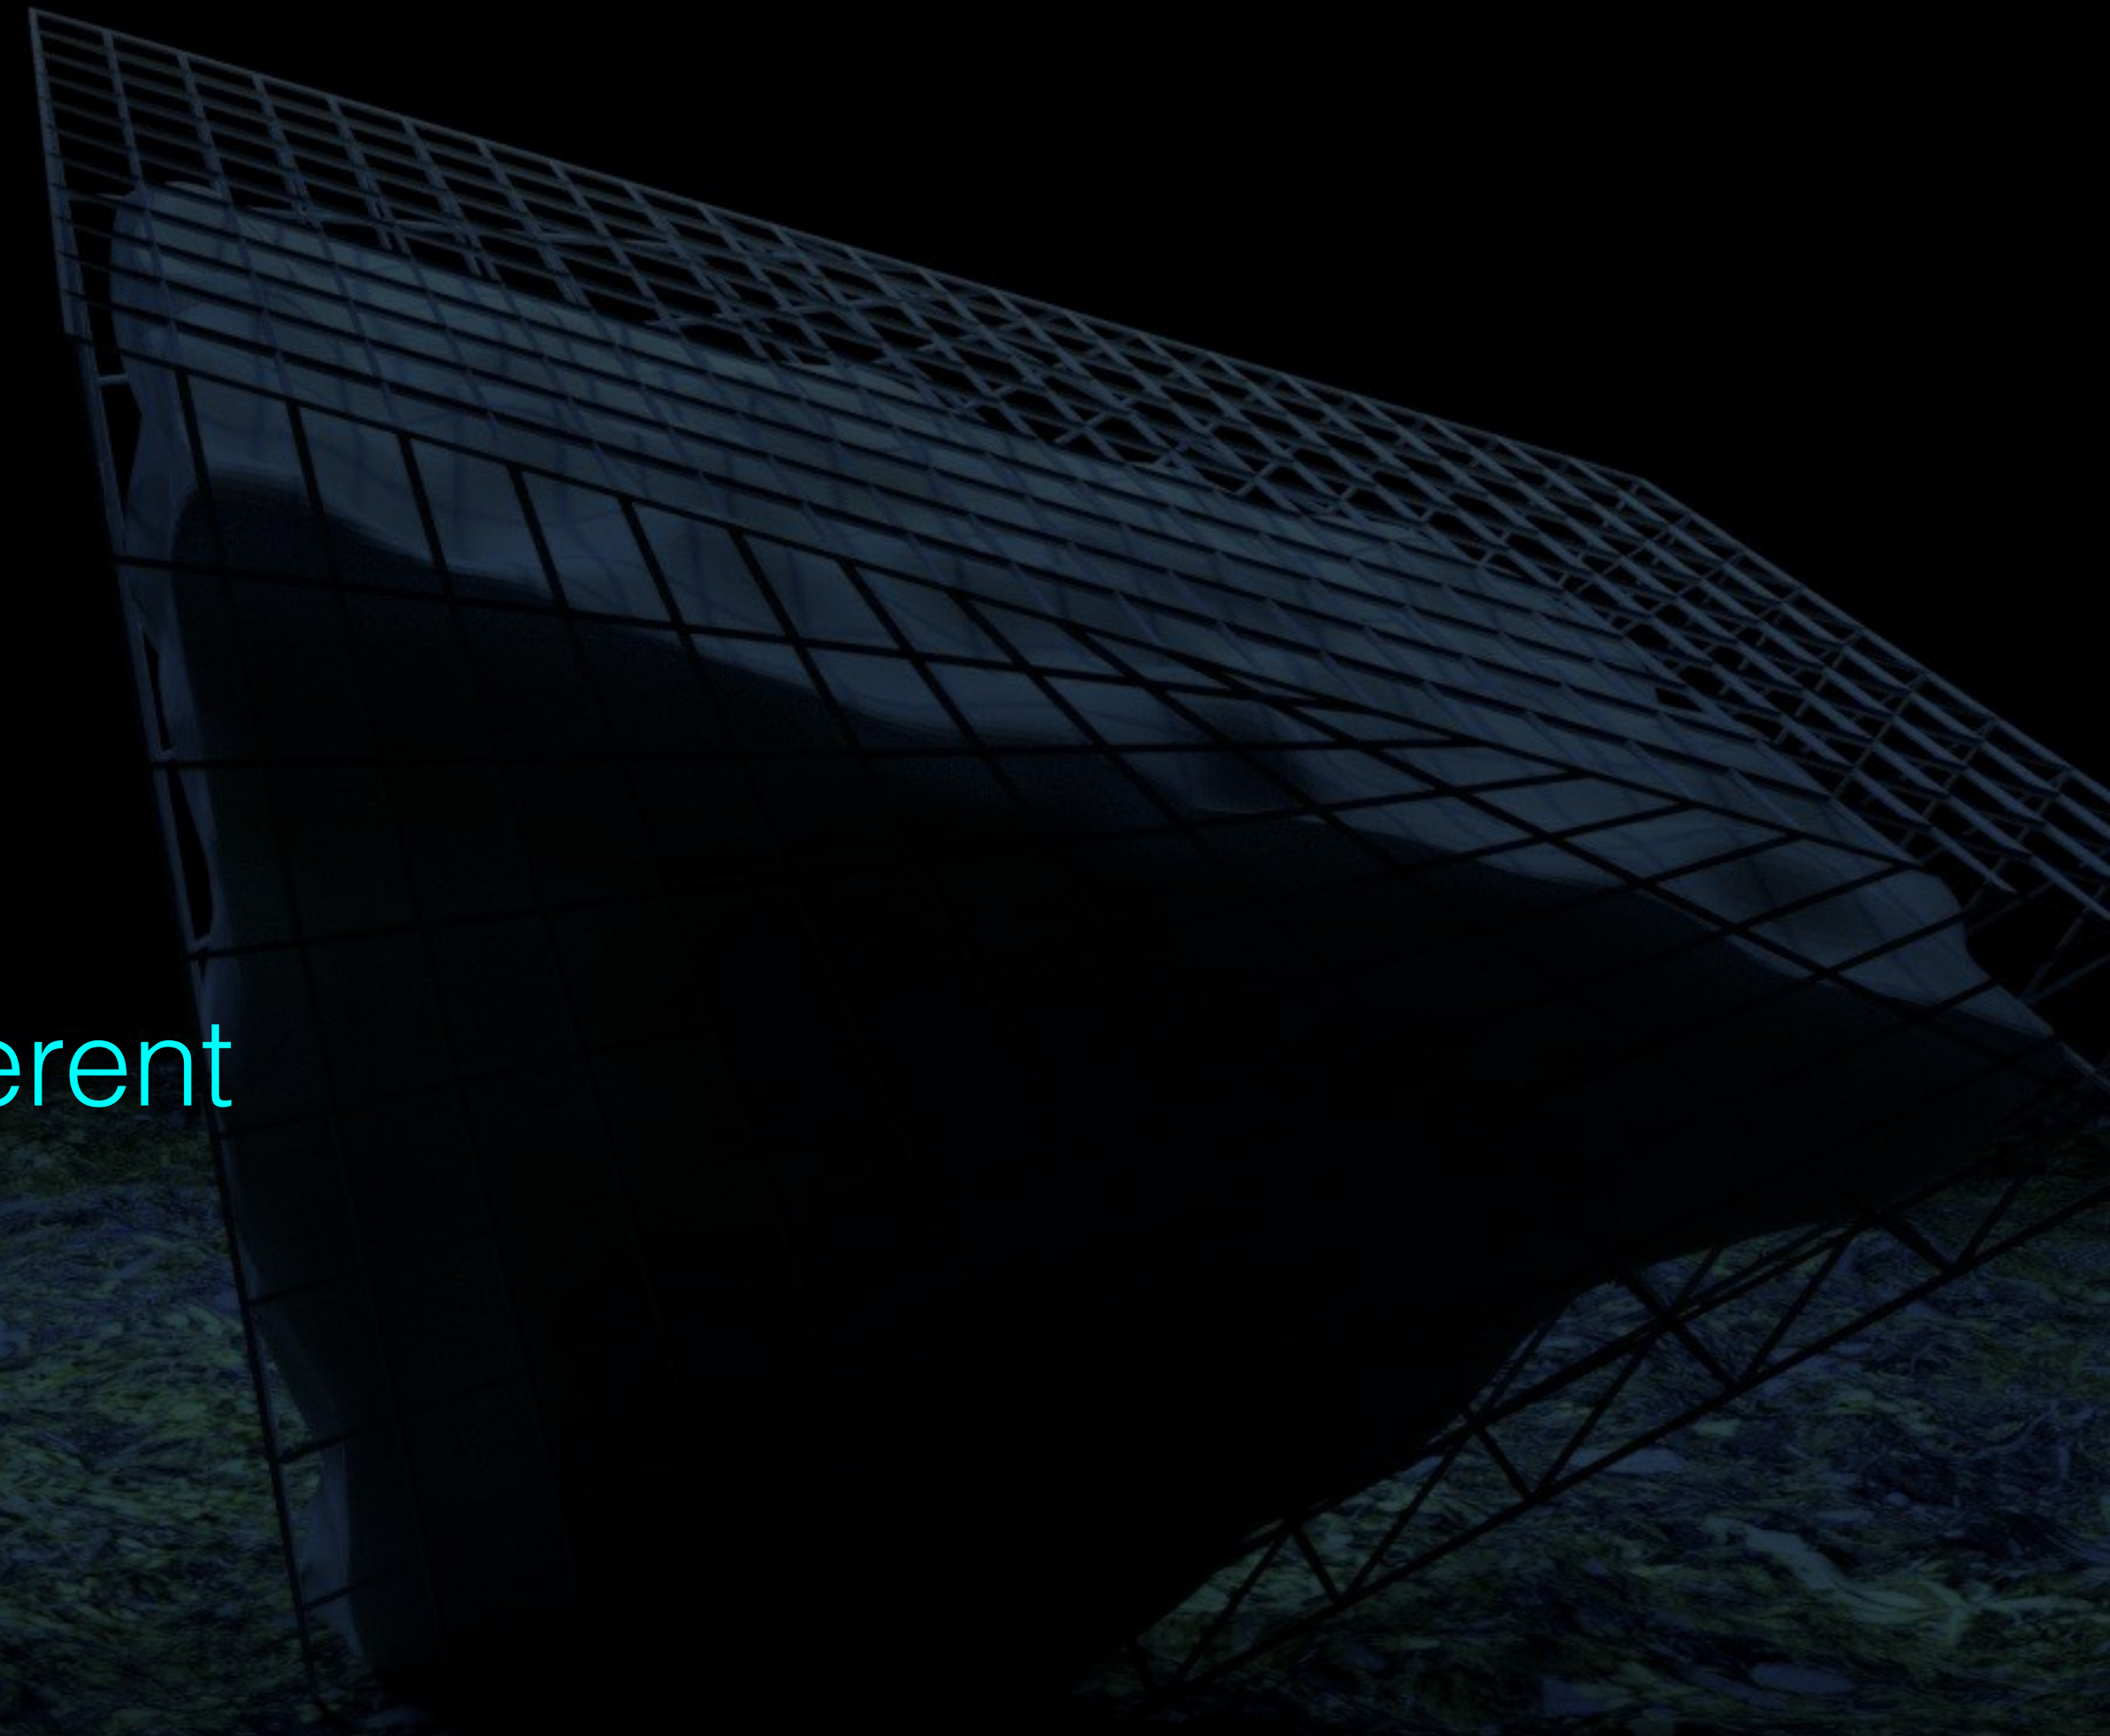

# Challenges

- Keeping it entertaining
- Time allocation
  - Take advantage of other opportunities that Berklee offered

# Answers

- Keeping it entertaining
  - New Technique/Skills application
  - Processing Chain
  - Malleable potential
  - If aesthetics don't match work on different projects
- Time allocation
  - Parallel rendering
  - Discard ideas
  - Prioritize

# Conclusions/What do I leave with ?

Motivation to continue developing as an audiovisual artist

A Master Degree

A holistic idea of what is expected of an artist and what an artist can ask for

Art exhibitions

Other artists

A stronger idea of my artistic voice

Thank You
