

Before the Dawn

by Jireh Calo

(Intro)

We woke up before the dawn
He said, "Take a walk with me"
So out under the starry skies
With no other soul in sight
We walked along, we walked along
the empty mountain road
We sang a song, we sang a song

Only our hearts could only sing
You're here with me now
There's no more sorrow,
No more pain

(Interlude)

We spoke of many things,
Of our passions and our dreams
And things that have yet to be seen,
We know they'll come to pass
He held on, he held onto my
shoulders
We're moving on,
Seems like we're moving on

and leaving the past behind
We're in a new space in time
Where love says seek
and you shall find -

Peace --
peace --

(Sop. sax solo over vox ad lib)

We spoke of many things,
my father and I,
Of love and forgiveness
As the sun lit up the sky
These are the things that matter most
at the end of the road
These are the things that matter most
at the end of the road
