

Berklee College of Music 1980-81 Catalog

Berklee College of Music

The International Institution
for the Study of
Modern American Music

Berklee College of Music is a non-profit, coeducational institution of higher learning incorporated under the General Laws of the Commonwealth of Massachusetts. The College is accredited by the New England Association of Schools and Colleges, and authorized under Federal law to enroll non-immigrant alien students, and to train Veterans under the G.I. Bill of Rights. Information in this catalog is accurate as of date of issuance. The right is reserved to make changes in detail as circumstances require.

Berklee College of Music admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the College. Berklee does not discriminate on the basis of race, color, national and ethnic origin in administration of its educational policies, admission policies, scholarship and loan programs, and other school administered programs. The anti-discrimination policies of Berklee are as required by Title VI of the Civil Rights Act and Title IX of the 1972 Education Amendments.

Boston's Back Bay & Vicinity

- | | | | |
|----------|----------------------------|-----------|---|
| 1 | Berklee College of Music | 6 | Gardner Museum |
| 2 | Prudential Center | 7 | Charles River Esplanade |
| 3 | Boston Public Library | 8 | The Music Shell
(Esplanade Concerts) |
| 4 | Symphony Hall | 9 | M.B.T.A. Station |
| 5 | Boston Museum of Fine Arts | 10 | Musicians Union |

Berklee College of Music is located in the very heart of the cultural Back Bay section of Boston. Nearby is Symphony Hall, the Museum of Fine Arts, the Gardner Museum, the Boston Public Library and many cultural attractions and concert facilities that feature jazz as well as other musical styles. Berklee's own acoustically acclaimed Performance Center is just a block away from the famed Prudential Center with its civic auditorium. Public transportation via bus or subway is only steps away from Berklee.

Boston is well known as a young person's city that hosts most of the major recording artists and shows on tour throughout the country. The many Boston clubs and concert halls have given birth to some of the nation's most popular performing and recording groups; and also provide an excellent opportunity for student musicians to gain experience and earn their education.

Berklee College of Music

Jazz improvisation with Andy McGhee

Until Berklee College of Music was established in 1945, few opportunities existed for the study of the music of our time.

At Berklee, founder Lawrence Berk pioneered a curriculum that applies fundamental theoretical principles to the development of techniques for the composing, teaching, performing and better understanding of 20th Century music. These fundamentals have equal application to a broad variety of musical styles, both classical and contemporary, and are of special assistance to today's professional in music who is encountering the challenges presented by the rapidly expanding musical repertory of the modern idiom.

Students at Berklee College of Music combine their study of these theoretical and technical basics with intensive ensemble performance and composing-arranging workshops which permit them to hear their own works performed.

This innovative and comprehensive curriculum has secured for Berklee College of Music its role as an international center for the education of career musicians, composers, arrangers and music educators.

Control Room and Recording Studio

Woody Herman and his pianist/arranger, Berklee graduate Alan Broadbent, talk with students

The Berklee Approach

College

Historically and continuing to the present time, America's contemporary music culture has flourished, experiencing unparalleled and dynamic growth. More than ever before, music is a career alive with opportunities. . . interesting, varied, challenging, remunerative. The range of secure and esthetically rewarding opportunities for well-prepared music students has never been greater than it is today.

This dynamic expansion in the pervasiveness of contemporary music has been accompanied by its increasing technical sophistication and also by greatly intensified competition. For the aspiring music professional, talent alone is no longer enough—a thorough and formal music education under experienced educators and professional musicians is needed.

The Berklee Approach prepares students for careers in music through a broadly-based, vocationally-oriented curriculum that focuses on both contemporary and traditional musical forms. Frequent performance with ensembles that vary in musical style and level of musicianship occupies a key role in the education of Berklee students. In addition to practical musicianship, course offerings emphasize the actual production of effective music, including jazz arranging, improvisation, recording studio techniques, popular vocal arranging, song writing and the writing of background music for films and other media productions.

Berklee's Primary Purpose is thus to prepare eligible candidates for careers as instrumentalists, arrangers, composers and teachers. Depending on his or her major field, each student has the opportunity to become:

a proficient instrumentalist, able to interpret a variety of musical styles;

a creative arranger-composer, able to contribute to the evolution and growth of our musical culture;

an inspiring teacher, able to present an organized approach to the mastery of musical technique;

a multi-skilled professional, able to respond to any musical challenge.

Curriculum

Program Offerings

Berklee College of Music offers the Bachelor of Music degree as well as a four-year program leading to the Professional Diploma. In either program, career majors include Performance, Arranging, Jazz Composition and Arranging, Composition, Professional Music, Film Scoring, Electronic Music, and Audio Recording. The Bachelor of Music degree in Music Education is available to Degree candidates only.

Both Degree and Diploma Programs are designed to help students achieve excellence in professional music. Intensive concentration in musical subjects provides each student with the necessary tools for developing his or her musical talent to the fullest, in order that there may be thorough preparation to meet the highly specialized demands of a career in professional music.

In the Degree Program, professional education is combined with studies in liberal arts so that music may be perceived in the substantial context of a more general culture. The Diploma Program is devoted entirely to the study of music and does not include academic courses required of degree candidates.

In both the Degree and Diploma programs the College offers the option of a "student-created" major. From a wide variety of course offerings, students may obtain appropriate curriculum guidance and counseling to structure a major geared to a special interest or musical strength.

The College also offers the Artist's Diploma. This Program is limited to students with special musical talents and above-average proven ability. Application for the program may be made after successful completion of one year of study at Berklee.

The First Year Curriculum

Berklee's innovative First Year Program has at its heart a unique and personalized placement process that maximizes each entering student's learning potential. Through testing and personal counseling, students from differing music backgrounds are placed in appropriate study sequences geared to individual needs.

During this first year, all students follow a closely co-ordinated, interrelated series of courses. Both Degree and Diploma candidates work in the same subject areas, except that Degree candidates also take a required academic subject.

Specific areas of study include harmony, theory/arranging, ear training, listening/analysis, ensemble and private instrumental/vocal study. Each subject is taught on six different skill levels: Basic (I & II), Intermediate (III & IV), and Advanced (V & VI). After comprehensive testing, students are assigned to appropriate levels within each course area.

Students may change levels at any time according to demonstrated ability, thus assuring meaningful progress on an individual basis. Each student will complete the equivalent of one, two or more semesters in each course and the amount of work completed during the first year will determine subsequent placement into second year courses.

In this manner, Berklee's unique, flexible First Year Program insures meaningful progress and provides continuing incentive for individual initiative and ability. The Program provides a solid musical foundation, and gives entering students the skills, experience, and perspective essential in choosing a career major.

Ear Training Laboratory

The Upper Year Curriculum

The Berklee Upper Year Curriculum is designed to prepare the student for a successful career as a professional musician and/or teacher. The immediate concern is with the practical application of contemporary teaching methods in a stimulating and productive atmosphere.

The following majors—unless otherwise indicated—may be selected by either Degree or Diploma candidates.

Selection is made during the second semester of attendance. With the help of a Faculty Advisor, the student has the opportunity to examine his musical and educational objectives and select a career major from a curriculum designed to meet the varied challenges of today's dynamic music profession. Each study sequence is designed to produce a graduate whose professional skills are commensurate with the goals of the Program and Major.

conducted by Herb Pomeroy

Major in Performance

The Performance Major is designed to prepare students for a playing career in any or all of many contemporary musical styles, including jazz, pop, rock, theater or studio work. Study on the principal instrument, or voice, includes intensive private instruction, laboratory classes, participation in a wide variety of ensembles, and public performance.

Major in Arranging

The Arranging Major is for students preparing for careers as professional arrangers. The program provides a broad background in fundamental arranging skills, as well as in-depth study of numerous musical styles. This major is designed to enable the student to develop the musical expertise needed to create or re-create the various styles of contemporary music in a professional manner. The performance of student arrangements provides aural awareness of the arranging techniques studied in the classroom.

Major in Jazz Composition & Arranging

The Jazz Composition and Arranging Major is designed for students who have a strong interest in developing writing skills in the jazz idiom. Courses in the program are organized with the dual purpose of exposing students to standard and experimental techniques in the works of the great jazz composers, and providing the musical/technical resources needed to develop individual jazz writing styles.

Major in Composition

The Major in Composition is intended for students who wish to acquire a working knowledge of the principal compositional devices that form the basis of the musical masterworks of our time. Composition courses provide the opportunity for analysis and development of important writing techniques in both traditional and contemporary idioms.

Major in Professional Music

This major is intended for students preparing for a career in professional music. Such students may be interested primarily in arranging/composition or in performance, or they may wish to structure an individualized program related to a unique combination of interests. The flexibility of the major in Professional Music permits a wide choice of subject areas from the many available music electives.

Major in Film Scoring

This major offers the compositional devices, scoring techniques, and technical information needed for the composition of music for films. Student projects are performed and recorded under studio conditions, and then synchronized to film and analyzed. Included in the major are studies of the psychological bases of music for specific film situations, as well as techniques on the Moviola related to click-track synchronization, editing, free timing, and overlaps.

Don Wilkins, Chairman of the Berklee Film Scoring Department, demonstrates the use of "Moviola" in synchronizing dialogue and video with musical sound track

Major in Electronic Music

This major provides a thorough and practical course of study in electronic music. Individual courses cover theory and application of synthesis techniques from basic to advanced levels. Regular, supervised hands-on sessions in the electronic music studio are an integral part of the program. Included in the major is participation in weekly synthesizer ensembles that provide "real-time" performing experience.

Michael Rendish, Chairman of Electronic Music Department, discusses synthesizer techniques.

Major in Audio Recording

The Audio Recording Major is for students who wish to gain a practical working knowledge of recording and sound reinforcement techniques while developing a solid musical background. Through a series of inter-related concentrated courses, students are exposed to all facets of studio engineering and record production. Studio sessions, mix-down labs, location recordings, and live concerts provide practical, professional experience.

Major in Music Education

The Music Education Major is designed to prepare qualified students to teach all aspects of public school music. Traditional and innovative approaches are used to develop competence in both instrumental and vocal areas. The Berklee approach to teacher-preparation training encompasses the mastery of many musical styles-from classical to contemporary-so that graduates of the program are fully qualified to provide instruction according to varying student needs and interests.

The Berklee College of Music Major in Music Education is approved by the Interstate Certification Compact. Students who complete the teacher education program meet all requirements for certification in Massachusetts and are automatically eligible for reciprocal certification in all states participating in the Interstate Certification Compact.

Visiting elementary school students enjoy synthesizer demonstration.

Admission Requirements

The Degree Program

Applicants for admission to the Degree program are expected to have had a minimum of two years of musical study and/or significant experience in some phase of music.

Graduation from an accredited high school or preparatory school is the normal academic prerequisite for admission to the Degree program.

Other requirements, as specified on the official College application form, include:

- 1 letters of reference
- 2 scores of college entrance examinations. These examinations are given by the applicant's secondary school or by direct arrangement with:

The College Entrance Examination Board
Box 592, Princeton, N.J. 02540 (Eastern Office)
Box 1025, Berkeley, Calif. 94701 (Western Office)

or

The American College Testing Program
Box 168
Iowa City, Iowa 52240

The college annually accepts a significant number of applicants transferring from other institutions. Transfer credits may be accepted from an accredited institution of higher education. However, credit will not be allowed for courses in which the applicant has received a grade lower than "C-," or its equivalent, and transfer placement in music courses will be determined only by examination. In all cases, at least four semesters of fulltime study must normally be spent at Berklee to qualify for the Degree.

CLEP Examinations The national program of placement and credit by examination—known as the College Level Examination Program (CLEP)—has been approved by Berklee College of Music as a means for establishing equivalent course credit in certain academic courses. Applicants who have completed CLEP exams in general education subject areas listed in the College Catalog may submit their scores by mail to the Admissions Office, and request credit by examination in such courses. Requests for CLEP credit by examination in academic subjects may also be made during the registration period through the Office of the Registrar.

High School Equivalency Certificates are not an automatic substitute for the High School Diploma, and the recognition of such equivalency documents is subject to careful evaluation. Applicants who are not high school graduates will be considered for the Degree program upon submission of a State High School Equivalency Certificate. Residents of states in which such an arrangement is not in effect may consult their State Board of Education for information.

The Diploma Program

Applicants for admission to the Diploma program are expected to have had a minimum of two years of musical study and/or significant experience in some phase of music. Other requirements are:

- 1 graduation from an approved secondary school or
- 2 the completion of at least 12 units in an approved secondary school or a High School Equivalency Certificate.

No college entrance examination board scores are required of Diploma applicants.

The 2-Year Certificate Program Diploma students who successfully complete the first two years of the Diploma program are eligible to apply for a Certificate. This request may be submitted to the Registrar subsequent to the recording of grades for the fourth full-time semester of work.

Student cafeteria at Berklee

Admission and Registration Procedure

The Office of Admissions, Berklee College of Music, 1140 Boylston St., Boston, Massachusetts (02215), is in charge of all matters concerning admission. Each applicant should obtain an application form from this office. Since the number of new students that can be admitted to Berklee each year is limited, students should complete the application procedure at their earliest convenience.

Pre-Registration of Entering Students Upon notification of acceptance, applicants are required to submit a \$100 payment in order to be considered an entering student. The payment confirms the applicant's intent to attend the College, and secures his place in the class. The payment is not refundable, and may not be applied to any other semester.

This payment by the entering student becomes a permanent pre-registration deposit for the subsequent semester of study (see Pre-Registration of Continuing Students). It is therefore not creditable against the entering student's expenses for the semester.

Pre-Registration of Continuing Students Pre-registration of continuing students for a subsequent semester of study is announced periodically by the College. At that time, continuing students make course selections from the College's current Course Offering Brochure. Faculty Advisors are available to assist in evaluating the desirability of course selections for establishing a particular career objective. Continuing students not completing the prescribed procedures in accordance with the published deadline date are charged a \$35 late registration fee. Continuing students not wishing to pre-register for a subsequent semester of study and giving the College timely notification in accordance with the published deadline are entitled to a refund of their permanent \$100 pre-registration deposit. Otherwise, the deposit is not refundable until the time of graduation.

Registration Registration takes place immediately prior to the starting date of each semester. For entering students, registration consists of orientation, testing and consequent placement at the appropriate level in each First Year subject area, and opportunity for meeting with Faculty Advisors. Students are not permitted to register later than ten class days after the start of the semester. No student is permitted to attend any class for which he is not officially registered.

Advanced Placement examinations are given during registration for all entering students. These examinations are an integral part of the extensive testing program which determines the appropriate level for all new students.

Payment of Tuition Tuition and fees are payable in full on or before the starting date of each semester. Payment of tuition and fees is part of registration; accordingly, no student's registration is complete until all tuition and fees for the current semester have been paid. Checks should be drawn to the order of Berklee College of Music. Where applicable, the same policy applies to students resident with the College (see Dormitory Residence.)

Foreign Students Persons who are citizens of foreign countries may apply for admission in the normal manner, but all foreign applicants must consult their United States consular officer abroad regarding immigration regulations, and present the proper documents to qualify for a student visa. The applicant must also give evidence of an adequate knowledge of English to the consular officer, and must present a FORM I-20 which confirms admission to the school. The I-20 form will be sent after the student is notified of acceptance and has submitted the payment required for classification as an entering student.

Theory, Ensemble;

Electronic Instruments

A.S., B.S., Boston University; A.S.C.M., Toronto (piano with Oscar Peterson). Professional performances throughout New England area as composer, arranger and pianist. Recording experience. Pianist/arranger for 'S Naval Training Command Jazz Ensemble.

William C. Thompson

Theory, Arranging, Ensemble

B.M., Berklee College of Music. Many years experience as professional performing artist, including U.S. Air Force, Arlington Philharmonic, and TV appearances. Former Instructor, Elma Lewis School and Massachusetts Correctional Institutions Programs.

Edward Tomassi

Arranging, Theory, Ensemble

Diploma, Berklee College of Music; studies, Rhode Island School of Music. Professional performer and arranger for various jazz groups in Rhode Island area. Private teaching experience in saxophone and improvisation.

Frank Turziano

Coordinator of Ensemble Programs

B.M., Berklee College of Music. Professional guitarist with variety of groups; extensive recording, television and theatre orchestra experience; engagements with such artists as Peggy Lee, Andy Williams, Johnny Mathis, and in theatre productions of "Godspell," "Jacques Brel Is Alive and Well and Living in Paris," "Man of LaMancha," "Lorelei." Musical director of productions of "Godspell" and "Jacques Brel." Private teaching and playing experience throughout the United States and Canada.

Alexander Ulanowsky

Chairman, Harmony Department; Arranging, Theory, Ensemble

B.A. Dartmouth College; special studies, New York College of Music and Berklee College of Music. Former Instructor, Stamford, Conn. Public Schools and Boston "Summerthing" program. Private teaching experience in piano and theory, Bedford Music Center. Professional jazz and studio work in New York and Sweden; toured with Buddy Rich band.

Joseph E. Viola

Chairman, Woodwind Department

Solo instrumentalist on clarinet, saxophone, oboe, English horn. Resident study in Paris with Marcel Mule. Extensive professional performances in radio, television, and musical theatre orchestras. Transcriptions and recordings at CBS and NBC, New York and California. Author of *The Technique of the Saxophone, Chord Studies for Saxophone*. Co-author, *Chord Studies for Trumpet, Chord Studies for Trombone*. Director, Berklee Faculty Saxophone Quartet. President, Berklee Faculty Association.

John Voigt

Librarian

A.B., Boston State College; Diploma, U. S. Naval School of Music; M.L.S., Simmons College. Prose works published by Intrepid and Olympia press. Rock and Roll bibliography/discography published by Wilson Library Bulletin. String bass in appearances with Michael Mantler, Gunter Hampel, Jean Lee, Perry Robinson, Darius Brubeck, Heike Sarmanto and with Pearl Bailey production of "Hello Dolly," Schubert Theater. Club dates with Jan Hammer and the Three Degrees. Member of the Boston production of "Hair." Leader of avant-garde jazz group, Music of the Spheres. Member of New England Chapter of the Music Library Association. Author, *Jazz Music In Print*, Flat-Nine Press.

David Vose

Percussion, Theory, Ensemble

B.M., Berklee College of Music. Performances throughout New England area with own group; recordings with Freddy Cannon and The Drifters. Extensive private teaching experience. Member, Percussive Arts Society. TV appearances on Sonya Hamlin show. Theater experience including "Godspell," "King and I," and "Man of La Mancha." Music published by Kendor.

Paul Wagner

Woodwinds, Arranging, Theory, Ensemble

B.S., University of Bridgeport; alumnus, Berklee College of Music. Former Instructor in public schools of Trumbull, Stamford, Conn. and Wakefield, Mass. Private teaching throughout Eastern Massachusetts and Southern Connecticut. Professional performing and recording artist. Arranger for numerous vocal/instrumental groups. Member Kappa Delta Pi Honor Society in Education.

Wayne Ward

*Conducting, Theory,
Music Education*

B.A., Tufts University; M.M., Eastman School of Music. Former Instructor of theory and vocal music, Dansville, N.Y. public schools. Music Director of 1973 Newport Music Festival and experienced choral/choir director. Professional accompanist and coach. Compositions in a variety of media.

Edgar Weiss

Assistant Registrar

Trombone with John Coffey. Professional arranger and leader of his own group. Former instructor and counselor in charge of brass at the secondary level for Tanglewood in Stamford Music Clinic. Berklee alumnus.

Diane Wheeler

Violin

B.M., University of Kansas; studies at New England Conservatory of Music and with Howard Boyajian. Former instructor, Topeka public schools. Extensive private teaching experience. Member of New England Conservatory Repertory Orchestra. Broadcasts for WGBH as member of Lydian Chamber Players. Served as assistant conductor of Lincoln-Sudbury Civic Orchestra. Extensive free-lance work with Boston Light Opera, Boston University Savoyards; jazz and rock recording sessions at Music Designers, Northern, Studio B, and Tritone recording studios. Productions by Livingston Taylor, Castle Music, John Manchester. Record albums with various artists.

Henry Wiktorowicz

Guitar, Theory, Ensemble

B.M. (Mus.Ed.), Berklee College of Music; M.M. (Mus.Ed.), New England Conservatory of Music; D.M.A. (candidate), Boston University School for the Arts. Master class with Alice Artzt. Guitar with Robert Paul Sullivan. Former Instructor in public schools of Boston and Randolph and at New England Conservatory. Professional performing artist with Boston Opera Company, Musica Viva, Boston Pops, Schubert and Wilbur theaters and Charles Playhouse. Recording and TV engagements with Boston Pops, Zoom and many other groups. Active composer and arranger. Author, "Teaching Arranging Through the Contract System."

Don Wilkins

Chairman,

Film Scoring Department

B.M., Berklee College of Music; undergraduate studies, American River College of Sacramento; graduate study, California State University. Film Composition with Albert Harris and Earle Hagen. Professional performer/arranger for variety of groups and theatre productions. Music Editor for Tom Jones "London Bridge Special" on NBC and composer/editor for many NBC, CBS, ABC network specials, including segments of ABC-TV movies "River of Gold" and "Maybe I'll Come Home." Composer/director of original score to winner of Atlanta Film Festival work, "Like a Crow on a June Bug." Supervised editing/mixing of Walter Scharf's "The Living Sea" and arranged material for Swedish TV special on George Gershwin.

John Wilkins*Guitar, Ensemble*

B.M., Berklee College of Music. Instructor in guitar, Needham (Ma.) public schools and in private studios. Performances with Phillip Black Qunitet, and the Narya jazz trio.

Bret Willmott*Guitar*

Undergraduate studies, Merritt College and California State University. Former Instructor at Roger Calkins Music and the Music Complex of California and Scorpio Music, Boston. Extensive professional experience in clubs throughout New England and California areas.

Phil Wilson*Trombone, Ensemble, Arranging*

Professional performing artist with variety of groups, including Woody Herman, Louis Bellson, Clark Terry, Buddy Rich, Herbie Hancock, Dorsey Brothers Orchestra. Former Director of Clinics at Mellon Arts Center, Harvard University, Yale University, Kansas State, University of California. Recordings for Famous Door, Boston Pops, Polydor, Freeform, Columbia, Seasac and RCA. Former Chairman of Jazz Division, New England Conservatory of Music. Board of Directors, International Trombone Association.

Robert Winter*Piano*

B.Mus., Boston University; Berklee alumnus. Piano with Lee Daniels, Leon Tumarkin, George Cohen; conducting with Frederick Prausnitz. Professional experience in many styles; T.V., radio, recording, club and show engagements. Former accompanist for Hildegard; toured with Ray McKinley/Glenn Miller orchestra. Musical Director, Playboy of Boston. Lecturer in History of Jazz and American Music, Northeastern University. Private piano instructor in Boston area for many years.

Ted Wolff*Vibraphone, Ensemble*

Professional performing artist for the Cultural Exchange Program of Boston (*Summerthing*); performances for Channel 5 TV (Sonya Hamlin Show) and Channel 7. Special appearances for WBUR Radio. Private instructor in vibes in Boston area.

Barbara Wood*Cello*

B.M., Ithaca College; M.M., New England Conservatory of Music; studies, Meadowmount School of Music. Master classes with Janos Starker, Paul Tobias, Raya Garbasouva. Member of "Quintessence" string quintet. Premiered numerous contemporary compositions. Major orchestral repertoire performed with Seiji Ozawa, Colin Davis, and Gunther Schuller.

Orville Wright*Piano, Ensemble, Arranging*

Diploma, Berklee College of Music. Professional performing experience throughout U.S. Accompanist with Harry Belafonte. Appearances at International Exposition in Montreal, Caesar's Palace, Las Vegas and the Hollywood Amphitheatre. Specialist in Steeldrum Band performance.

Steve Young*Bassoon*

Undergraduate studies. Eastern New Mexico University; Berklee alumnus, Bassoon with John Miller (Minnesota Symphony), Stephen Maxym (Metropolitan Opera) and Phillip Kolker (Baltimore Symphony). Former bassoonist with National University Symphony of Mexico and Santa Fe Opera; Boston engagements include Boston Ballet, Boston Opera Co., Cantata Singers and orchestras of the Schubert and Colonial theatres. Experienced private instructor.

Emanuel Zambelli*Piano*

Diploma in Piano, Boston University, Piano with Alfredo Fondacaro, Jesus Maria San Roma and Robert Casadesus. Organ with Dowell McNeill, N.E.C. Solo concert appearances with Arthur Fiedler and at Isabella Stewart Gardner Museum. Awarded Koussevitsky Memorial Fund Scholarship in chamber music. Former instructor in piano at Boston University. Piano debut, Jordan Hall. Author, *Scale Patterns for Keyboard*.

George Zonce*Theory, Ensemble*

B.M., Berklee College of Music; special studies, Navy School of Music. Trumpet with Armando Ghitalla. Performances with Petula Clark, Mel Torme, Burt Bacharach. Toured and recorded with Buddy Rich. Soloist on "Jazz in the Classroom" albums.

Tony Bennett performs with
Berklee Concert Jazz Orchestra

Description of Courses

Arranging and Scoring

Freshman Theory/Arranging

A variably paced Freshman Program course designed to allow the student to cover as much of the sequential Arranging Department materials as is educationally appropriate. Pacing is determined by initial placement testing, continued counseling, and demonstrated ability. Instruction may include materials from *Theory*, *Arranging 1*, and *Arranging 2*. *Variable credit (Depends on level/placement)*

Arranging 1

Basic music theory and review of fundamentals, including rhythmic/melodic dictation, scale and chord structure, and terminology. Arranging studies of transposition techniques, the rhythm section, principles of melodic analysis, and two-part writing.
6 credits

Arranging 2

Principles of melodic embellishment and harmonic continuity. Complete discussion of close and open position harmonization in three and four parts. Principles of harmonic tension and approach techniques. Background writing. Students produce and hear arrangements for various instrumental combinations.
3 credits

Note: All music courses carry 2 credits unless otherwise indicated.

Chord Scale Voicings for Arranging

Five and Six part writing for instruments. Application of voicings in 2nds, 3rds, and 4ths. Upper structure triads, clusters and other non-mechanical voicings derived from chord scales. Extensive score analysis.

Continuation Study in Arranging 2

Emphasis on individualized instruction for students seeking the opportunity to further absorb techniques covered in Arranging 2. Written arrangements and score analysis projects required.

Continuation Study in Chord Scale Arranging

Emphasis on individualized instruction for students seeking the opportunity to further absorb techniques covered in Chord Scale Voicings for Arranging. Written arrangements and score analysis projects required.

Commercial Arranging for Large Ensemble

Emphasis on various ensemble styles. Use of doubling instruments and practical voicings. Commercial string writing as applied to studio orchestras. Use of transposed scores.

Commercial Arranging for Small Ensemble

Small group arranging techniques applied to popular and standard repertory. A variety of instrumental combinations is explored.

Scoring for Percussion 1

Survey of the idiophonic, membrane, and accessory families of percussion instruments, their demonstration, and discussion of notation, range, techniques, and effects. Scores from Broadway shows, studio orchestral, chamber and solo pieces.

Scoring for Percussion 2

Scores from differing styles and idioms will be analyzed and students will compose original works for percussion which will be performed by a departmental ensemble.

Jazz Arranging for Small Ensemble

Jazz arranging techniques for the rhythm section and various small group instrumental combinations. Emphasis on developing complete rhythm sectional sound with or without winds.

Arranging in the Rock Idiom

Arranging instrumental back-up music for vocalists. Problems of group vocal arranging are also considered. Materials are drawn from contemporary standard rock repertory.

Big Band Arranging and Score Analysis

Analysis of scores by contemporary big band arrangers such as Bill Holman, Thad Jones, Manny Albam, Graham Collier, Oliver Nelson, etc. Library assignments and class discussion. Written arrangements and score analysis projects required.

Jazz Arranging for Large Ensemble

Analysis of scores for the large jazz ensemble. Emphasis on understanding of basic material as a source of ideas for orchestration, ensemble color, and texture. Development of individual techniques. Final project required.

Jazz Arranging for Large Ensemble

Writing for large jazz orchestra. Mixing ensemble colors and textures. Form, structure and notational techniques related to a variety of combinations.

Continuation Study in Big Band Arranging

Emphasis on individualized instruction for students seeking the opportunity to further absorb techniques covered in Big Band Arranging. Written arrangements and score analysis projects required.

Advanced Commercial Arranging for Large Ensemble

Problems of writing for studio orchestra including woodwinds and strings. Staging and pacing of acts. Collaboration with choreographers on music for dance. Orchestration and analysis of current harmonic practices.

Arranging for Theatre Orchestra

Arranging for vocalists, instrumentalists, and theatre productions.

Arranging for the High School Jazz Ensemble

Principles of writing for high school jazz ensembles with standard and mixed instrumentation. Range problems, rhythm section parts, special considerations for high school musicians; examination of published scores.

Jazz Arranging for Large Ensemble

Writing for large jazz orchestra. Mixing ensemble colors and textures. Form, structure and notational techniques related to a variety of combinations.

Advanced Jazz Arranging for Small Ensemble

Continuation of course material in Jazz Arranging for Small Ensemble. Performance of student arrangements in class. Discussion of form, improvised solos, and new developments in notational practice for small jazz ensembles.

Advanced Commercial Arranging for Small Ensemble

Small group arranging techniques applied to mixed ensemble combinations in commercial situations. Extension of principles learned in Commercial Arranging for Small Ensemble.

Arranging for Contemporary Chamber Jazz Ensemble

The arranging of original tunes, combining both traditional jazz techniques and contemporary compositional concepts. Analysis of taped examples.

Reharmonization Concepts for Arranging

Exploration of the various forms of extended reharmonization of melody. Applications in arranging/composition and in situations involving thematic development.

Scoring for Strings

Discussion of string instruments, their special effects and proper notation. Principles of string orchestration and voicing techniques.

Line Writing

Arranging for large ensemble groups utilizing available note voicings and linear techniques.

Arranging in the Style of Duke Ellington

Analysis and application of the band style of Duke Ellington.

Advanced Jazz Arranging for Large Ensemble

Analysis and application of principles found in music of Gil Evans, Thad Jones, McCoy Tyner. Extended application of modal and serial contrapuntal techniques to jazz ensemble arrangements.

Contemporary Arranging and Composition

An overview of techniques encountered to date; the primary objective being to place each technique in proper musical perspective. Development of individual creativity through conferences with the instructor. Written projects.

Scoring for Concert Band

The orchestration of traditional works for concert band and woodwind-brass ensembles. Principles of score layout, articulation and part-extraction.

Scoring for Full Orchestra

Orchestration techniques for full symphony orchestra. Illustrations from representative scores.

Developing Short Cuts in Arranging

A practical approach to developing speed when arranging for all size ensembles. Discussion of abbreviations and shortcuts used by arrangers and methods used to produce completed arrangements with or without a score in a short period of time.

Directed Study in Arranging

Emphasis on individualized instruction which will give student writers the chance to absorb technical material and apply it to various arranging situations with the musical guidance of the instructor.

Faculty member Larry Monroe (guest soloist) with student ensemble directed by Tony Teixeira

Harmony

Freshman Harmony

A variably paced Freshman Program course designed to allow the student to cover as much of the sequential Harmony Department materials as is educationally appropriate. Pacing is determined by initial placement, testing, continued counseling, and demonstrated ability.

Variable Credit (Depends on Level / Placement).

Harmony 1

Basic harmonic theory. Intervals, diatonic triads, root motion, chord symbols, Roman numeral analysis. Principles of chord progression, inversions, and linear harmonic continuity. Blues harmony.

3 credits

Harmony 2

Continued exploration of modern chord progression. Dominant and secondary dominant relationships. Chord patterns. Passing diminished chords. Minor key chord progression. Sub-dominant minor.

3 credits

Harmony 3

Extension of principles of modern chord progression. Analysis and synthesis of progressions found in current popular music. Substitute dominant chords. Modulations. Blues progressions. Diminished chord patterns and appropriate substitutions.

Harmony 4

Extension of principles of modern chord progression. Deceptive resolution. Melody-Harmony relationships. Extended endings and turn arounds. Modulations. Line cliches. Minor key progressions. Correction and/or reharmonizations of standard progressions.

Reharmonization Techniques and Modal Harmony

Principles of modal chord progression and melody writing. Modal interchange. Use of pedal point and ostinato. Key area and extended reharmonization with voice-leading. Constant structure progressions. Hybrid structures.

Harmonic Consideration in Improvisation

A course designed to explore the relationship between improvisation and harmonic context. Analysis of harmonically sophisticated tunes using analytical techniques from Harmony 4. The use of chord scales in improvisation and analysis of recorded jazz solos. Discussion of specific harmonic idioms and their related improvising styles. Tunes by Coltrane, Hancock, Corea and Shorter, among others, will be included.

Linear Derivation of Harmony

Analysis of two-part Bach inventions, themes, sequences, tunes, modulation. Related writing projects and their performance.

Harmonic Analysis of Contemporary Song Styles

Analysis of jazz tunes and more sophisticated song material. Related chord scales, 3 & 4 part non-mechanical voicings, partial structures, voicings in 4ths, upper structure triads. Performance of tunes and writing of original materials.

Harmonic Analysis of Rock Music

A study of rock harmony, bass lines and melodies as practiced in the various periods and types of rock music. Recorded examples and published music will be analyzed with an emphasis on characteristic harmonic devices. Influential performers and groups will be discussed at length.

Linear Harmony

Working with major tonality harmonic functions as an outgrowth of linear melodic tendencies. Emphasis in aural development, identification of characteristic chord progressions, and reharmonization of tunes.

Advanced Harmonic Concepts

An extension of Departmental Harmony sequence with emphasis on newer concepts to enable students to write and understand tunes in the style of Mike Gibbs, Chick Corea.

Advanced Modal Harmony

Modal chord progression. Analysis of modal jazz and popular tunes. Voicings with characteristic modal tones, and original composition of modal melodies.

Contemporary Trends in Chord Progression

Analysis of contemporary tunes from various musical perspectives. Harmonization as a function of melody, inner lines, and overall musical context. Use of these concepts along with principles of reharmonization and modulation, in writing and scoring tunes.

Post Be-Bop Harmonic Innovations

Survey and harmonic analysis of music growing out of the Be-Bop jazz era. Extensive study of John Coltrane, Miles Davis, Wayne Shorter and Thelonius Monk. Discussion of blues forms and modal harmony as used in the 1960's. Application of harmonic concepts through composition of original music.

Ear Training

Freshman Ear Training

A variably paced Freshman Program course designed to allow the student to cover as much of the sequential Ear Training Department materials as is educationally appropriate. Pacing is determined by initial placement testing, continued counseling, and demonstrated ability.

Variable Credit (Depends on Level/Placement)

Ear Training 1

Development of basic ear training skills through singing and dictation studies. Triadic harmony studies and basic modern rhythms. Melodic studies in major keys.

3 credits

Ear Training 2

Continuation of Ear Training 1. Modern rhythm studies, diatonic seventh chord harmonic studies, melodic studies in major keys.

3 credits

Ear Training 3

Continuation of Ear Training 2. Ear training skills developed through singing and dictation drills. Minor mode studies. Secondary dominant studies. Basic record copying projects involving a variety of musical styles.

Ear Training 4

Continuation of Ear Training 3. Modal singing and dictation studies. Interval studies and 2 and 3 part dictation. Basic atonal music studies.

Solfege 1, 2

Development of sight-singing skills using the movable DO method. Rhythm, pitch, and intervals drills in G, F, and C clefs. Part singing.

Rhythmic Ear Training

An ear training course designed to improve the student's ability to sight-read and notate rhythms. The course begins with recognition of simple, common rhythmic phrases and progresses to complete practical transcriptions of the rhythms in recorded materials (Baroque, Latin, Disco, Jazz, etc.)

Harmonic Ear Training 1, 2

Identification of chord progressions. Root motion, guide tone resolution, melody/harmony relationships. Acquisition of dictation skills.

Advanced Ear Training 1, 2

Listening to and identifying intervals in tonal and non-tonal situations. Intended to bridge the gap between "relative pitch" and hearing by interval alone. Preparation for singing atonal music.

Atonal Solfege 1, 2

A continuation of solfege which will concentrate on atonal music. Books used include the "Modus Novus." and the choral works of Webern.

Fundamentals of Transcription

A course designed to teach the student how to transcribe recorded material. Emphasis on small instrumentation and vocal music as found in jazz, pop, and rock. Techniques taught for transcribing melody, harmony, and bass lines.

Popular Song Transcription

A course designed to teach the student how to transcribe songs and arrangements common in current popular music. Most projects are chosen by the student in his/her area of musical interest. Project presentation in class.

Transcribing Jazz Solos 1, 2

Recorded transcriptions of jazz solos from various periods. Classroom analysis and discussion.

Performance Ear Training for Winds, Strings & Mallets 1, 2

Performance Ear Training for Keyboards 1, 2

Performance Ear Training for Percussion 1, 2

Performance Ear Training for Voice 1, 2

Ear training with an emphasis on practical performance experience. Recognizing pitch, rhythm, harmony, and timbre by ear. Some dictation. Some non-syllabic sight singing.

Analysis

Freshman Listening/Analysis

A course designed to acquaint the student with the principal elements of music through analytical listening. Students are exposed to numerous musical styles on a variety of levels.

Rhythmic Style Analysis

A survey course concerned with the components of rhythm and their uses in the melodies, harmonies, backgrounds and rhythm sections of music from a variety of idioms. Examples from Handel, Joplin, Armstrong, Brubeck, BS & T, Winter Consort, Mangione.

Analysis of Bass Line Patterns

Detailed analysis of bass line patterns and rhythms. Primarily a lecture course; recordings and slides are used to supplement lectures. Intended for bass players and composer/arrangers. Emphasis on a creative and original approach to bass-pattern studies.

Analysis of Current Jazz Trends

A survey of the more popular jazz groups with an emphasis on why they are successful. Exploration of the types of music they play, media's influence on popularity, cultural and ethnic influences, and audience targeting.

The Music of Miles Davis

A course tracing the development of the music of Miles Davis. Examination and discussion of the evolution of his playing and writing styles. Concentration on the listening and analysis of improvised solos, tunes, forms, harmonic practice and the development of jazz.

The Music of Charles Mingus

An investigation of the basic elements discovered in the compositional and arranging style of Charles Mingus. Categorization and analysis of various works.

Style Analysis of Baroque to Neo-Classical Music

Research into compositional practice and stylistic distinctions in music from the Baroque to Neo-Classical periods. Analysis of representative works.

Style Analysis of 20th Century Music

Early 20th Century to the present. Examination of the development in mainstream, serial, electronic, aleatoric and experimental composition.

The Symphonies of Beethoven

The evolution of Beethoven's musical language as evidenced by the micro-structure and macro-structure of symphonies I through IX.

The Beethoven String Quartets

Comparative study and analysis of the principal Beethoven quartets. Relationship of Beethoven's quartets to his work as a whole. Examination of the outstanding compositional characteristics of this important body of literature.

Analysis of Contemporary Compositional Techniques

An analysis of 20th Century compositional techniques and their relationship to the jazz composer. Included will be the music of Ives, Messiaen, Penderecki, Riley and others.

Bartok's Chamber Music

Score analysis, discussion and study of Bartok's chamber works. Comparison of formal characteristics, scoring and compositional practices.

Early Chamber Music of Arnold Schonberg

Analysis of the early tonal and free atonal techniques in Schonberg's pre-1923 compositions. Examinations of the causes and effects of pre-serial techniques on 20th Century composition.

The Music of Karlheinz Stockhausen

A survey of Stockhausen's efforts to continue the evolution of musical language and develop a new musical vocabulary. Study and analysis of representative scores and recordings.

Traditional Musical Forms in the 20th Century

A comprehensive survey of the forms in which music has been written from the Renaissance and Baroque through to the 20th Century. Passacaglia, fugue, sonata, rondo and all other forms are historically traced and analyzed to show their adaptations to each period of musical composition.

Introduction to Schenkerian Analysis

An introduction to the compositional techniques of the major tonal composers (Bach, Haydn, Mozart, Beethoven and others) through the analytical procedures of the noted Austrian theorist, Heinrich Schenker.

The Symphonies of Jean Sibelius

Analysis of the development of the Sibelius style from the First through the Seventh Symphonies. Methods by which the Finnish master utilized tone, color, motive, development, beat modulation and modal counterpoint.

Analysis of Sonata Forms

A comparative, historical study of sonata forms from the Baroque period to the present. Selective analysis of representative works by Scarlatti, Haydn, Mozart, Beethoven, Schubert, Chopin, Brahms, Debussy, Sessions, Carter. Emphasis on historical development and evolution of the sonata form. A term paper as final project is required.

Webern and Post-Webern Serial Composers

Analytical study of the development of serial music from the Viennese school to the post-Webern group of Boulez and Milton Babbitt and Martino. Required term paper.

The Music of Charles Ives

An analysis and exploration of the music of a uniquely American composer through a study of both his large orchestral works and various quartets, sonatas and songs. There will be an emphasis on the many compositional aspects of his writing, including poly-tonality, poly-rhythms, and use of quarter-tones.

The American Avant-Garde

A survey and in-depth analysis of the music of composers who have worked in the United States and whose efforts have taken them into experimental areas of creating.

Instrumental Studies

The instrumental program at Berklee is designed to equip each student with the performance skills necessary for the professional musician. Private instruction, technique classes, and repertory/materials sessions are combined with participation in performance ensembles and/or instrumental labs.

Private Instruction

Private lesson instruction provides students with individual guidance in developing technique, learning repertory, and acquiring a sense of musical direction. The content of private lesson material is established by each instrumental department, and supplementary material may be developed by individual instructors.

Problems of phrasing, control, and technical flexibility are examined in detail for the purpose of developing the skills necessary for competent performance.

Additional, elective instrumental study is available in accordance with the Outline of Courses for each program of study.
2-4 credits per semester, according to program

Trumpet

Theory of tone production, breathing and embouchure. Studies: Arban, Berman, St. Jacome, and Schlossberg. Selected etudes. Representative solo and ensemble literature. Concentration on professional repertory and solo/sectional performance with professional bands and studio ensembles.

Trombone

Development of basics—breathing, embouchure, articulation, and slide technique—to provide the foundation for creative musical expression. Studies: Arban, Blazevich, Bozza, Boutry and others as prescribed. Representative solos and ensemble literature, both traditional and contemporary. Concentration on professional performance in modern idioms.

Saxophone

Theory of tone production, breathing and embouchure. Studies: Karg-Elert, Lacour, Diemente, "Technique of the Saxophone" by Joseph Viola, Loyon and Bozza, solos by Ibert, Diemente, Hartley and Mule. Concentration on all phases of professional work: orchestral, dance band and small group. Analysis of recorded solos. Application of contemporary technique to playing of jazz and classical music.

Piano

Technique: scales, arpeggios chords, and tone-control. Technical studies and traditional piano literature at all levels. Jazz and popular materials at all levels including voicing techniques, improvisation, sight-reading, transposition and stylization. Advanced study in modern chord progression and reharmonization. Both large and small group repertory. Analysis of recorded solos.

String Bass-Electric Bass

Technique: All aspects of playing are explored through study of basic positions, scales, arpeggios, and concepts of improvisation. Attention is given to creating bass lines, establishing time relationships, bowing and picking techniques, and producing electronic effects. Studies include standard repertoire, transcriptions, orchestral studies, selected solos, contemporary compositions and jazz group solo techniques.

Guitar

Scales, arpeggios, chords, sight reading and rhythm guitar. Theory of modern harmony (progressions, voicing, chord-scale relationships) as applied to improvisation and other solo techniques. Studies: *A Modern Method for Guitar* by Wm. G. Leavitt and selected traditional literature. Pick-style approach required for minimum of four semesters or equivalent.

Percussion

Snare technique: basic and advanced rudiments. Studies: Pace, Chapin, Stone, Allbright. Leavitt, Wilcoxon and Gardner. Emphasis on modern jazz technique concentrates on the Goldenberg method as well as the four-mallet principle. Timpani: Freise and Goodman. Selected solos, orchestral literature, and repertoire. All majors in percussion must eventually perform on mallets and timpani. Special studio and jazz performance techniques.

Voice

Fundamental principles of tone production and breath control. Standard vocalise materials and studies. Techniques of group singing and exploration of stylistic interpretation. Appropriate repertoire in jazz, popular and traditional idioms.

Violin, Viola, Cello

Technique: the study of traditional and contemporary scales, progressions, chord sequences and articulations. Studies: Suzuki, Whistler, Mazas, Kreutzer, Rode. Solo and duo repertoire. Principles of professional performance in the jazz idiom.

Tuba

Tone production, breathing, embouchure development. Scales and arpeggios. Studies: Arban, Schlossbert, Blume. Solo and ensemble repertoire. Role of the tuba as a sectional instrument in jazz and studio ensembles.

Flute

Theory of tone production, breathing and embouchure. Studies: Taffanel, Gambertas, Koehler, Boehm, and Soussman. Prescribed solos and sonatas, etudes, symphonic literature and orchestral repertoire. The flute as a doubling instrument in studio ensembles. Analysis of recorded solos by name performers in professional music.

Oboe

Theory of tone production, breathing, embouchure. Studies: Vade Mecum Andraud, Debondue, Hewitt, Gillet, Barret, "Complete Oboe Method." Solos from the traditional literature. The oboe as a doubling instrument in studio ensembles.

Clarinet

Theory of tone production, breathing and embouchure. Studies: Eugene Gay, Lazarus, Klose, Kroepach, Cavallini, Rose, and selected duets. Solo works: Brahms Sonatas, Mozart Concerto, Debussy Rhapsody, Nielsen and Copland Concertos, and pertinent orchestral repertoire. The clarinet as a doubling instrument in studio ensemble. Analysis of recorded solos by representative artists.

Bassoon

Tone production, breathing, embouchure. Studies: Milde, Weissenborn, Piard. Selected solos and ensemble passages from the repertory. Reed making and fixing. The bassoon as a doubling instrument in studio ensembles.

French Horn

Theory of tone production, breathing and embouchure. Fundamental materials and studies. solos from the traditional literature by representative composers. Problems of professional studio playing and sectional phrasing in jazz ensembles.

Class Instruction

Keyboard Class for Music Education Majors

Intended for majors in Music Education. A graduated method piano study for the beginning student dealing systematically with note reading, rhythm, and technique. Materials range from separate hand studies to simple two-voice pieces and include simple melodies with chordal accompaniment, transposition, choral-style accompaniments and sight reading of open score vocal arrangements.

1 credit, each semester

Basic Keyboard Technique 1

For non-piano majors. Comping, harmonic continuity. Triads, seventh chords; melody and accompaniment. Standard song form; blues.

Basic Keyboard Technique 2

Continuation of Basic Keyboard Technique 1 for non-piano majors. Advanced comping, voicing; additional melody/accompaniment techniques.

Basic Electric Organ Technique 1, 2

Double keyboard techniques for piano or non-piano principals. Instruction in the basic principles of organ performance through individual and ensemble participation.

Flute Class For Music Education Majors

Functional study of the flute. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Clarinet Class

Functional study of the clarinet. Fundamentals of embouchure formation, fingering, breathing.

1 credit

Clarinet Class for Music Education Majors

Functional study of the clarinet. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Double Reed Class for Music Education Majors

Functional study of double reed instruments. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Trumpet Class

Functional study of trumpet. Solo and ensemble practice

1 credit

Trombone Class

Functional study of the trombone. Solo and ensemble practice. Discussion of other lower brass instruments.

1 credit

Trumpet Class for Music Education Majors

Functional study of the trumpet. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Trombone Class for Music Education Majors

Functional study of the trombone. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Percussion Class for Music Education Majors

Functional study of percussion instruments. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Guitar Class for Music Education Majors

Functional study of the guitar. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

String Class

Functional instruction in violin, viola, cello and acoustic bass. Basic technique. Ensemble practice.

1 credit

String Class for Music Education Majors

Functional study of stringed instruments. Technical fundamentals of class instruction in music education. Use of representative elementary/secondary school methods and materials.

1 credit

Repertory/Materials**Woodwind Repertory 1,2****Brass Repertory 1,2****String Repertory 1,2****Guitar Repertory 1,2****Keyboard Repertory 1,2****Percussion Repertory 1,2**

Courses for majors in traditional performance designed to routine the instrumentalists in the performance of standard classical literature.

Instrumental Laboratories

The Instrumental Laboratory Program consists of small instrumental groups organized within the instrumental department. A variety of subject areas such as sight-reading, accompaniment techniques and stylistic interpretation are offered on different levels. The labs reinforce and expand upon materials covered in private lessons, and also prepare students for participation in the Ensemble Program.

Keyboard Lab - Comping 1, 2, 3

Instrumental Laboratory for Piano principals emphasizing comping studies and the application of these techniques to the jazz ensemble.

Keyboard Lab - Reading 1, 2, 3

Instrumental Laboratory for Piano principals emphasizing studies in a variety of musical idioms.

Keyboard Lab - Repertoire

Instrumental laboratory for Piano principals emphasizing the study of various keyboard techniques applied to standard, popular, and jazz tunes.

Guitar Lab - Chords 1, 2

Instrumental laboratory for Guitar principals emphasizing chord studies, voice leading, and physical development on the guitar.

Guitar Lab - Reading 1, 2

Instrumental laboratory for Guitar principals emphasizing reading studies in a variety of musical styles.

Guitar Performance Lab

Performance laboratory for freshmen guitar principals emphasizing group performance in a variety of musical idioms.

Advanced Guitar Performance Lab

Performance laboratory for upper semester guitar principals emphasizing group performance in a variety of musical idioms.
1 credit

Percussion Lab Chart Reading 1, 2

Instrumental laboratory for Percussion principals emphasizing the study and interpretation of drum set parts for the jazz ensemble.

Percussion Performance Lab

Performance laboratory for Percussion principals emphasizing group percussion performance in a variety of musical idioms.

Advanced Percussion Performance Lab

Performance lab for percussion principals emphasizing group percussion performance in a variety of musical idioms.
1 credit

Percussion Mallet Performance Lab

Performance Laboratory for Percussion principals emphasizing group mallet percussion performance in a variety of musical idioms.

Woodwind Lab - Sectional 1, 2

Instrumental laboratory for Woodwind principals emphasizing the development of the woodwind section for the jazz ensemble.

Woodwind Lab - Reading 1, 2, 3

Instrumental laboratory for Woodwind principals emphasizing reading studies in a variety of musical styles.

Note: All labs carry 1/2 credit unless otherwise indicated.

Trumpet Lab - Sectional 1, 2

Instrumental laboratory for Brass principals emphasizing the development of the brass section in the jazz ensemble.

Trumpet Lab - Reading 1, 2, 3

Instrumental laboratory for Brass principals emphasizing reading studies in a variety of musical styles.

Trombone Lab — Basics

A workshop/lab course emphasizing development of basic techniques (breathing, embouchure, etc.); and presenting general trombone knowledge required in contemporary music.

Trombone Lab — Reading

Instrumental laboratory for trombone principals emphasizing reading studies in a variety of musical styles.

Bass Lab - Basics

Instrumental laboratory for Bass principals emphasizing the basic techniques and styles of bass playing in a variety of musical idioms.

Bass Lab - Lines

Instrumental laboratory for Bass principals emphasizing the construction and performance of bass lines through chord changes in standard, popular, and jazz tunes.

Vocal Reading Lab 1, 2

Vocal Laboratory for voice principals emphasizing reading studies in a variety of musical idioms.

Vocal Lab — Sectional 1, 2

Introductory performance laboratory for voice principals emphasizing fundamental choral performance techniques in a variety of musical idioms.

Ensembles

The Ensemble Program consists of a variety of mixed instrumentation performance groups. The program is designed for students with demonstrated performance capabilities, including those qualified students participating in the Instrumental Lab Program. While the Lab Program concentrates on teaching specific performing skills, the Ensemble Program provides actual performing experience emphasizing the application of those skills.

Specific ensembles include the following:

Buddy Rich Band

Big Band Ensemble playing arrangements from the Buddy Rich Band Library.

Woody Herman Band

Big Band Ensemble playing arrangements from the Woody Herman Band Library.

Count Basie Band

Big Band Ensemble playing arrangements from the Count Basie Band Library.

Thad Jones — Mel Lewis Band

Big band ensemble performing arrangements from the Thad Jones — Mel Lewis band library.

Louis Bellson Band

Big Band arrangements from the Louis Bellson Band Library.

Large Theater Orchestra

Playing "Broadway" show scores. Experience in theater orchestra playing. Shows vary each semester.

Small Theater Orchestra

Playing "Broadway" show scores written for smaller instrumentation.

Latin Ensembles

Performance of Latin-American music. Exploration of different Latin rhythms.

General Business

Emphasis on tunes and procedures for General Business or Club Date work.

Concert Band

Rehearsal and performance of contemporary works for concert band. Two concerts a year in which the band may be joined by soloists or choral groups.

Symphonic Orchestra

Study and performance of standard repertory. Public performances each semester.

Contemporary Wind Ensemble

Playing modern pieces written specifically for this ensemble by students. Unique chamber woodwind and percussion instrumentation.

Dixieland Ensembles

Improvisation and learning of songs in the Dixieland style.

Trombone Ensembles

All-trombone group, with rhythm section, playing contemporary jazz and rock arrangements.

Special Saxophone Sectionals

Emphasis on use of woodwind doubling in the reed section. Experimentation with different voicings and colors.

Saxophone Quartets

Traditional saxophone quartet playing music by a variety of composers.

Jazz/Rock Ensembles

Performance of student works; variety of musical styles in the jazz/rock idiom.

Flute Ensembles

Unique flute section with rhythm section; special arrangements in jazz idiom.

Percussion Ensembles

Conventional and experimental combinations of percussion instruments performing original jazz works as well as traditional and contemporary compositions for percussion.

Guitar Ensembles

Groups of four to eight guitars performing special arrangements of standard and original works in all jazz and contemporary styles.

Brass Choir

Large brass group performing traditional brass choir music.

Brass Quintet

Traditional brass quintet playing music of a variety of composers.

Trombone Choir

Large trombone group playing traditional music.

String Ensembles

String trios, quartets, and large string orchestra, playing traditional and contemporary string music.

Vocal/Instrumental Ensembles

Top '40, Show Band, Nite Club type material. Some two, three, and four part vocals as well as solos; head charts.

Improvisational Styles Ensemble

Performing ensembles with emphasis on various improvisational idioms from be-bop to more modern interpretations.

Note: All ensembles carry 1 credit unless otherwise indicated.

Keyboard Improvisation Workshops

Discussion and playing of contemporary, be-bop, and other styles of music for keyboards and rhythm section; work on improvisation and comping in the piano trio style. Use of original material and standard jazz compositions.

Rhythm Section and Vocal

Rhythm section(s) with vocalists. Some arrangements; head charts

Clarinet Choir

Emphasis on traditional literature for clarinet; clarinet choir materials; three, four, and five part music; reading and interpretation.

1/2 credit

Flute Choir

Emphasis on traditional literature for the flute; flute choir material; three, four, and five part music; reading and interpretation.

1/2 credit

Woodwind Ensembles

Woodwind trios, quartets, and quintets playing traditional and contemporary music.

Woodwind Jazz Ensembles

Professional level performance situations for woodwind doubles. Reading skills required in a variety of musical styles and idioms.

Repertory Workshops

Harmonic analysis and performance of standard and contemporary jazz repertory.

Jazz Workshop

Improvisational workshops dealing with improvisation in the jazz idiom.

Small Jazz Ensembles

Small group playing in jazz, rock, swing and Latin idioms. Ensemble playing and some soloing.

Large Jazz Ensembles

Big Bands of varying sizes and instrumentations playing arrangements in contemporary idioms.

Jazz Composition Ensemble

Performance of student projects of contemporary multimovement of jazz pieces. Polytonal music, and some free form.

Bassist Charles Mingus and piano instructor James Williams perform for Berklee students

Synthesizer Ensembles

Exploration of the integration of the synthesizer in performance with conventional instruments.

Project Bands

(organized to play student arranging projects)

Recording Bands
Line Writing Bands
Jingle Writing
Show Bands
Film Scoring
Small Ensembles
Large Ensembles

Ensembles in the Recording Studio

Rhythm Sectionals
Brass Sectionals
Sax Sectionals
String Sectionals
Large Ensemble Sessions
Vocal/Instrumental Groups
Vocal Groups

Vocal Ensembles

Jazz Choirs
Traditional Chorus
Chorale
Sight-Reading Ensembles

Performance Studies

Fundamentals of Improvisation for Guitar 1

Discussion and performance of various melodic embellishment and comping techniques. Topics include: anticipations, delayed attacks, comping, diminution, augmentation, repeated notes, added chord tones, passing tones, neighbor tones, appoggiaturas, interval expansion and contraction

Scores of jazz guitarists will be analyzed.

Fundamentals of Improvisation for Guitar 2

A discussion and performance of improvisation as applied to form and composition of solos. Topics include: arpeggios, guide tones, repetition and sequence, phrasing, chord scales, diatonic major, minor seventh, dominant seventh, minor sixth, minor seventh flat five, and diminished chords. Scores of jazz guitarists analyzed.

Fundamentals of Improvisation for Percussion

Analysis of the major percussion styles of the last twenty years. Survey, discussion and performance of standard repertory. Melodic/harmonic analysis and their application to mallet instruments. Course is designed to help prepare percussionists for rhythm section labs.

Fundamentals of Improvisation for Bass

Application of scales and modes to improvisation on the bass. Recordings are utilized to discuss and analyze major bass styles and performers. Course is designed to help prepare bassists for rhythm section labs.

Fundamentals of Improvisation for Piano

Introduction to piano improvisational skills. Class participation through individual experience. Course is designed to help prepare pianists for rhythm section labs.

Basic Techniques of Blues Improvisation

Blues form. Use of Mixolydian and Dorian modes. Analysis and development of melodic and rhythmic patterns. Discussion and performance of taped works by Parker, Lester Young and Basie. Performance and discussion of student blues solos and compositions.

Improvisational Techniques

Discussion and illustration of various approaches to improvisation in several types of music. Included will be recordings and transcriptions of major artists.

Advanced Improvisational Techniques

Performance/analysis of original jazz tunes. Students use their own compositions as well as specially prepared tunes. A variety of improvisatory forms are covered.

Improvisation in the Latin/Jazz Idiom

Performance and analysis of Latin - American music and related song forms. Recorded examples of important players. Discussion of inner and outer form. Rhythmic and melodic performance dictation.

Improvisation in the Jazz/Rock Idiom

Analysis and performance of rock and jazz/rock songs. Recorded examples of important players. Discussion of inner and outer form. Rhythmic and melodic performance dictation.

Improvising on Standard Songs

Performance of standard tunes. Analysis of improvisational principals through the use of chord scales, guide tones and other techniques. Principals of form.

Contrapuntal Jazz Improvisation for Pianists

Emphasis on the walking bass line through the study of a series of rhythmic/melodic motives. Simultaneous linear or chordal improvisation in the right hand. Student analysis of transcriptions and weekly class performance.

Vocal Improvisation in the Jazz Idiom

Contemporary pitch and rhythmic exercises for the voice. Style analysis of various recording artists, including Ella Fitzgerald, Sarah Vaughn, Al Jarreau, George Benson, Sonny Rollins and others. Course projects based on in class performance; improvisation on standard tunes.

Jazz Improvisation

Each class includes analysis and performance of common jazz forms and devices. Materials are chosen to cover the variety of forms used in jazz and to provide a repertoire of tunes most common to the jazz musician. Recordings and solo analysis of master player exemplify devices and techniques universally employed by jazz musicians. Each class will contain a small jazz group where students will be able to apply the techniques that are discussed. Classes will be offered on multiple levels from basic to advanced depending on the proficiency of the participants.

Guitar Performance Styles

Analysis of contemporary guitar styles and effects. Lectures by experts in various styles. Focus on jazz, rock and country as well as styles of specific artists. Emphasis on performance. Assignment of student projects.

Berklee Jazz Trombone Choir
under the direction of Phil
Wilson

Performance & Analysis of Be-Bop Music

Analysis and performance of music in the style of Parker, Gillespie, Clifford Brown, Kenny Dorham and others. Standard progressions and transcribed solos from music of the 40's and 50's are analyzed and performed.

Performing Harmony Workshop 1, 2

Playing harmony parts (2nd, 3rd, and 4th) to a given melody by ear through the use of guide tones. Discussion of chord progressions used in popular and standard songs.

Calypso & Steeldrum Band Performance

Origin and development of the steeldrum ensemble. Performance of music for steeldrum band. Analysis, discussion and reproduction of representative compositions.

Commercial Band Workshop

How to play and manage a general business job. What you are expected to know as a sideman and as a leader. Analyzing audience response as well as similarities in the night club and social function businesses.

Recital Seminar

Students perform two twenty-minute recitals for which they will be responsible for organizing and preparing music of their own choosing. Consultation with the instructor on an individual basis concerning programming, performance and audience response.

Recital Class for Music Education Majors

A performance class for Music Education majors. Students prepare for solo and ensemble presentations intended to demonstrate proficiency on their principal instrument.

Ragtime and Fingerpicking Guitar

Analysis and performance of Ragtime and Delta Blues, music by Mississippi John Hurt, Merle Travis, Chet Atkins, Reverend Gary Davis. Emphasis on student performance, research, and building a repertory of representative pieces.

Popular Singing Styles

A survey of well-known singers including Cleo Laine, Stevie Wonder, James Taylor, Joni Mitchell and others. Listening and discussion of techniques and styles, through the use of recordings and scores, culminating in an in-class performance. The class is open to all vocalists (not necessarily vocal majors) and accompanists.

Bass Performance Styles

Students will transcribe and perform solos, lines, etc. of major bass players in jazz. Projects will be chosen to reflect many different styles found throughout the history of jazz. Emphasis on major innovators: Mingus, Chambers, Pettiford, etc.

Piano Accompaniment Techniques

Extensive listening and analysis of accompaniment (comping) techniques utilizing taped examples of professional players in a variety of styles. Use of style, rhythm and voicing techniques in contrast and imitation in a supportive role. Emphasis on the student's ability to interact successfully with the solo instrumentalist or vocalist.

Conducting 1

Techniques of conducting vocal and instrumental music. Fundamental beat patterns. Discussion and study of terminology, problems of tempo, phrasing and articulation.
1 credit.

Conducting 2

The course assumes basic beat pattern knowledge and covers three areas: 1) symphonic conducting with an instrumental soloist (concerto), 2) symphonic conducting with a vocal soloist (operatic aria) and 3) symphonic conducting of a major modern work involving complete meter changes. Works used include a romantic piano or violin concerto, an operatic excerpt and a piece such as Petrouchka, or The Rite of Spring.
1 credit.

Rehearsal Techniques

Students rehearse ensembles with prepared materials of their own choosing. Discussion and analysis to follow each rehearsal.

Conducting 1, 2 for Music Education Majors

Techniques of conducting. Fundamental beat patterns. Discussion and study of terminology, problems of tempo, phrasing and articulation. Geared to the needs of music educators in the public schools.
1 credit, Each semester.

Advanced Conducting

Intended for students interested in professional orchestral conducting. Course will include more advanced baton work, and detailed discussion of the relation of the conductor to the score and to the orchestra.

Choral Conducting Workshop 1, 2, 3, 4

Application of learned conducting techniques to choral situations. Critique of individual performance.
No Credit.

Band Conducting Workshop 1, 2

Application of learned conducting techniques to group instrumental situations. Critique of individual performance.
No Credit.

Composition

Traditional Harmony and Composition 1

Traditional harmony and basic compositional procedures. Concentration on modal and tonal triadic harmony. Figured bass, principles of voice-leading, chorale and homophonic textures.

Traditional Harmony and Composition 2

Continuation of Composition 1. Advanced traditional harmony and intermediate compositional procedures. 7th chords, altered chords, modulation.

Contemporary Techniques in Composition 1, 2

Specific techniques of traditional 20th Century composition. Technical devices such as quartal harmony, serial writing, polytonality, and contrapuntal techniques are illustrated and described. Assignments are directly related to each of these aspects of composition and are performed in class.

Jazz Composition 1

A systematic approach to the art of composing in the jazz idiom. Exploration of melodic, harmonic, and rhythmic principles. Standard jazz song forms. Analysis of jazz standards. Arranging considerations applied as a means of enhancing a composition. Projects for small jazz group required.

Jazz Composition 2

Composition of extended jazz pieces for large ensemble. Examination of representative works by various important jazz composers. Discussion of form and content as it applies to extended composition in jazz. Composition of a ten minute piece for large jazz orchestra required.

Advanced Jazz Composition

Development of an individual style of composition related specifically to jazz and use of jazz performers. Emphasis on new forms and development of new techniques. Projects required.

Chord Scale composition

An examination of the tonal possibilities of the chromatic scale and the related harmonic and melodic devices available to the contemporary jazz composer.

Composition for Jazz Orchestra

Composition for jazz orchestra. A seminar for advanced students.

Composing for the Small Jazz Ensemble

Utilization of twelve tone methodology in creating a uni-movement, multi-section jazz concert piece.

Composition of Popular Songs 1

An examination of different song styles and probable reasons for their success. Lyric writing in the popular song idiom. Students compose their own songs and arrange them for class performance.

Composition of Popular Songs 2

Continuation of Composition of Popular Songs 1. Students arrange and produce a demonstration tape of an original song in the recording studio.

Directed Study in Sonata Composition

Sonata form. The composition of an extended 3-movement sonata for Piano or for Solo Instrument and Piano.

Directed Study in Orchestral Composition

The composition of an extended work for full contemporary orchestra. Intended to demonstrate the student's ability to handle large orchestral groups in a characteristic and coherent manner.

Composition with Pitch Scales

The construction of unconventional scales and their melodic-harmonic applications. Composition with pitch scales and study of their relationships in continuity and simultaneity. Rhythmic considerations and clock-time planning.

Choral Composition

Traditional scoring techniques for full chorus, with and without instrumental accompaniment. A traditional-style choral composition is required as a class project.

Techniques in Classical-Romantic Composition

Study and application of variation techniques from Mozart through Brahms. Analysis of representative works. Class projects include the composition of a short work in traditional variation form.

Compound-Line Composition for Solo Instruments

Examination and application of the "compound line" as a basic device in composing for unaccompanied solo instruments. Analysis of representative works in the Baroque idiom. Composition of short works in traditional and contemporary styles.

Counterpoint

Traditional Species Counterpoint

Two-part counterpoint. Species and free counterpoint in traditional style. Modal counterpoint, modulating counterpoint.

Traditional Two-Part Canon and Invention

Continuation of Traditional Species Counterpoint. Two-part canon and two-part invention.

Traditional Three-Part Fugue

Three part counterpoint; three part fugue.

Traditional Four-Part Fugue and Motet

Four part counterpoint; four part fugue; motet in 16th Century style.

Introduction to Jazz Counterpoint

Introduction to harmonically derived counterpoint. Harmonically derived melody and the basic elements of form and style. Basic harmonically derived counterpoint. Special emphasis on modern idioms of jazz, pop, and rock with direct application to arranging techniques.

Two-Part Jazz Counterpoint

Writing two-part harmonically derived counterpoint through the study of canons, inventions and their relationship to the modern idioms. Two-part counterpoint in arranging and composition.

Three-Part Jazz Counterpoint

Introduction to and study of three-part counterpoint as an extension of harmonically controlled two-part counterpoint in canonic form and the fugue. Discussion of three-part motivic developmental devices. Special emphasis on three-part counterpoint as an arranging or compositional technique in both the jazz and commercial styles of writing.

Four-Part Jazz Counterpoint

The extension of harmonically controlled counterpoint to four or more parts. Four-part writing with direct application to arranging or compositional techniques in the contemporary jazz and commercial styles of writing. An introduction to interval based melodies with appropriate harmonization and contrapuntalization. Discussion of contrapuntal control of chord progressions.

Advanced Contrapuntal Forms

An advanced course in traditional counterpoint intended for majors in Composition. Higher contrapuntal forms. Study in round, mirror fugue, passacaglia, and other variation forms.

20th Century Counterpoint

20th Century Counterpoint including polytonal, nondiatonic, linear dissonant counterpoint; rhythmic and imitative devices; contemporary fugue.

Electronic Music

Introduction to Electronic Music Techniques

This course traces the development of electronic music from musique concrete to today's synthesizers and computers. Appreciation of the literature, styles and techniques. Recorded examples and demonstrations. Topics include special tape effects and editing, concepts of music synthesis, types of synthesizers and their use, modern concert, film and commercial applications. Designed for the student desiring an overview, but not intent on pursuing electronic music as a major course of study.

Principles of Electronic Music Synthesis 1

Basic concepts and techniques of electronic music synthesis. Emphasis on performance/application of these techniques to portable synthesizers. Aural analysis/synthesis problems. Supervised weekly "hands-on" practice sessions with synthesizers.

Principles of Electronic Music Synthesis 2

Continued study of synthesis techniques applied to medium-sized synthesizers. Channel-to-channel overdubbing techniques. Special tape effects (echo, canon, speed variation) and editing technique. Continued aural analysis/synthesis. Application to film scoring, commercials, broadcast IDs, etc. Supervised weekly "hands-on" practice sessions with synthesizers and professional tape equipment.

Advanced Electronic Music Synthesis 1

Further synthesis techniques applied to a large studio synthesizer. Multi-channel recording and overdubbing, metrical editing and musique concrete. Application to projects in arranging and/or composition. Supervised weekly "hands-on" practice sessions with synthesizer, multi-channel tape equipment and mixer console.

Advanced Electronic Music Synthesis 2

Use of large synthesizer and multi-channel mixing and recording equipment. Application to arranging and/or composition projects. Psychoacoustic implications of synthesis techniques. Supervised weekly "hands-on" sessions with synthesizer, mixer console and multi-channel tape equipment.

Continuation Study in Principles of Electronic Music Synthesis 1, 2

Continued application of electronic music techniques studied in Principles of Electronic Music Synthesis 1. Supervised weekly "hands-on" practice sessions with studio equipment.

Continuation Study in Advanced Electronic Music Synthesis 1, 2

Continued application of electronic music techniques studied in Advanced Electronic Music Synthesis 1. Supervised weekly "hands-on" practice sessions with studio equipment.

Writing for the Synthesizer 1

A basic course for arrangers and/or composers who have not concentrated in electronic music and wish to become oriented to synthesizer capabilities. Examinations of typical resources, timbres, ranges, effects and notational procedures. Application to transcriptions for synthesizer or groups that include synthesizers.

Writing for the Synthesizer 2

A continuation of Writing for the Synthesizer 1. Detailed discussions of multiple synthesizer usage. Incorporation of advanced forms and compositional techniques. Notation and employment of electronically processed acoustical sources. Performance of student works.

Media Techniques

Survey of Film Scoring Techniques and Procedures

This course is intended for non-film scoring majors to give them an overview of the mechanics of synchronization and the psychological implications of applying music to film. Analysis of specific dramatic situations will be followed by demonstrations of scoring techniques such as click tracks and picture recording. Procedures for composing and recording film music will be discussed.

Introduction to Film Music Composition

A course intended to provide a better understanding of music and its relationship to the visual image. Designed to give supplementary background in composition, orchestration and conducting prior to taking Film Composition 1.

Film Composition 1

Writing music for specific film situations. The significance of composition and orchestration for attaining certain psychological results. Thorough exposure to the use of click tracks for synchronization. Students conduct their projects which are recorded and later previewed with the film for analysis.

Film Composition 2

Composition of film music by use of a stop watch instead of click tracks. Projects also deal with conducting to a stop watch or the projected picture. Advanced techniques such as overlaps and double tracking and their psychological significance.

Survey of Film Music

A detailed study of the history and development of film music from the silent film era to the present. Weekly discussions of the principal film composers with students presenting research reports on their music. Class presentations and extensive score analysis of musical examples.

Film Music Editing

A technical course including class instruction, semi-private lab work and individual editing projects. Practical experience on both vertical and flatbed editing equipment.

Survey of Audio Recording Techniques

A generalized overview of recording studio technology and procedures. Topics include studio set-up, equipment, editing concepts, mixing, and studio management. These materials are particularly applicable to the studio musician, arranger, or producer. Not recommended for students planning a Major in Audio Recording.

Audio Recording 1

Introduction to audio recording and the recording studio. A non-technical approach. Topics of significance to the future studio musician, producer, musical director or manager, and school music teacher.

Audio Recording 2

Technical aspects of the recording studio including calibration and alignment of equipment, editing, session set-ups, mixing, console flow logic, patchbay application, and theory of microphone design and placement. For students with an interest in audio engineering.

Directed Study 1, 2 in Audio Recording

Directed study and practicum in the recording studio including concert recording. Designed for the career-oriented studio engineer. Scheduled time will be arranged by appointment with the instructor.

Mixdown Lab 1

The course is intended for students who expect to be in a professional recording studio as a musician, writer, or producer. A prerequisite for those with a career goal in audio engineering. Study of console functions when mixing from a multi-channel recording to two-channel stereo. Includes the control of channel levels, multi-band equalization, pan pots, reverberation, compressors and limiters, and the uses of the patch bay.

Mixdown Lab 2

Continuation of Mixdown Lab 1. The course is intended to make the student aware of flexibility and limitations of the console, recorders, and all auxiliary equipment, so that the musical goals of the producer or client can be interpreted and implemented.

Sound Reinforcement Systems 1, 2

Investigation of equipment used for musical sound reinforcement. Small, large, portable, and fixed systems. Specifications will be based on the nature of the music performed, kinds of musical instruments, size of the performing group, and the nature of the performance location. Studies will include the experience of assisting the Performance Center's audio staff at concerts.

Recording Studio Production & Projects

This course will include all aspects of a recording project. Depending on the nature of the project, preparation may include: song and talent selection, recording and overdub sessions, mixdown sessions, and editing the master tape so that it is ready for mastering and pressing.

Writing Radio and Television Commercials

Preparation and layout of commercials for radio and television. Rehearsal and recording procedures for vocal and instrumental sound tracks.

History of Music

Development of Western Music: Middle Ages Through Baroque

A survey of the major styles in Western music from about 600 AD to the conclusion of the Baroque. This includes a summary of ancient music. Audio-visual examples of scores, and photographs of related art works.

Development of Western Music: Classical to Modern Times

A survey of the major styles in Western music from the early Classical period to the present. Audio-visual examples; correlation of characteristics of each period with activities in related arts.

Chamber Music of the Romantic Period

Historical analysis and examination of the chamber literature of the 1800-1900 period. Survey of the form and content of representative works by Schubert, Schumann, Brahms, Saint Saens, Franck and Tchaikowsky.

Jazz From Its Origins To The Present

A survey of music in the jazz idiom from its origins to the present. Chronological examination of the principal musicians and composers. Analysis of the more influential soloists, groups, and composers through the use of tapes and scores. Students are expected to develop a knowledge of the various periods, styles, and forms of Jazz music.

The Bop Masters

An in-depth survey of the principal instrumental soloists, vocalists, vocal groups, and arranger-composers of the Be-Bop period. A variety of ensemble groups will be examined through tapes and recordings.

Survey of Alto Saxophone Styles

An analysis of the history of the alto sax in jazz. Analysis of the various styles of major players. In-depth study of Hodges, Parker, Adderley and others through tapes and transcription. Course will also cover the usual alto sax doubles, flute and clarinet.

Survey of Trumpet Styles

A study of the development of jazz trumpet playing. Analysis through recordings and transcriptions of various styles and periods. Study of important innovators from Armstrong and Beiderbecke to the present.

Early Guitar Studies

A lecture course covering the history, repertory and construction of the guitar, lute and vihuela. Reading of tablature, analysis of major works from the 15th thru 20th centuries by composers such as Mudarra, Narvaez, Dowland, Weiss, J.S. Bach, and Albeniz. Extensive use of early instruments will be examined in class. Museum visits.

The Guitar in the Twentieth Century

In-depth examination of the repertory and performance practice for the guitar since 1900. Analysis of major works by Britten, Martin, Henze, Brouwer, Walton, and others. Discussion of avant garde techniques, improvisation in the classical style, use of tapes and electronics. Unusual instrumental combinations with guitar.

Survey of Song Forms

A study of the popular song styles of the 20th century. Contemporary songs from a variety of idioms (folk, musicals, pop groups, etc.) are compared and contrasted with their predecessors from classical and romantic literature. Emphasis on the evolution of modern song forms. Example: comparisons of the works of Schumann, Brahms, R. Strauss with songs by Gershwin, Porter, Bernstein, Lennon and McCartney.

Survey of Guitar Styles

A survey of contemporary guitar players and styles as well as related doubling instruments. Emphasis on major players and various playing styles through tapes and transcriptions.

Survey of Tenor Saxophone Styles

An analysis of the history of the tenor saxophone in jazz. Emphasis on the various playing styles of the major players. In-depth studies of Hawkins, Young, Coltrane, Rollins and others, through tapes and transcriptions. Included are soprano and baritone saxophonists.

Survey of Trombone Styles

A study of the development of jazz trombone playing. Analysis through recordings and transcriptions of various styles of playing. In-depth studies of Teagarden, Harris, Johnson and others.

Survey of Bass Styles

A study of the development of jazz bass playing. Analysis through recordings and transcriptions of various playing styles. In-depth studies of Blanton, LaFaro, Mingus and others.

Survey of Piano Styles

A study of the development of jazz piano playing. Analysis through recordings and transcriptions of various playing styles. Study of the important innovators in the field.

Survey of Drum Styles

A study of the development of the jazz drummer. Analysis through recordings and transcriptions of various playing styles. In-depth studies of Catlett, Roach, Rich and others.

Survey of Vocal Styles

A study of the development of the jazz vocalist. Analysis through recordings and transcriptions of various singing styles. In-depth studies of Ella Fitzgerald, Lambert, Hendricks and Ross and other notable contributors to the development of jazz vocalizing.

General Music

Legal Protection of Musical Materials

The securing and maintaining of rights under common law and statutory copyright, including the panoply of protected rights and their infringement. Public domain considerations, performance rights, right to prohibit all but "fair use." Problems of joint, co-authored, and commissioned works and of sale, license or assignment, and divisibility. Organized protection through ASCAP and BMI. Tax aspects of owning copyrights. The function and operation of the Musicians' Union.

The Music Business

A seminar designed to provide an understanding of business practice as related to the music industry. Topics covered include: contracts, union regulations, dealing with booking agents, personal managers, publishers and producers, instrument sales, operating a music studio and store, and other aspects of the music business. Guest lecturers.

Musical Instrument Repair

Problems of repair with respect to brass, woodwind, string and percussion instruments. Laboratory sessions.

Guitar Repair

Introduction to the adjustment and maintenance of the guitar and bass. Discussion of the acoustical and electrical properties of various types of fretted instruments. Setting action, intonation, truss rods, and pickup height. Pickup installation, filing frets, gluing cracks and modifications.

Piano Tuning

Explanation and application of tuning acoustic and electric pianos by the equal temperament system. Problems, procedures, and exploration of standard techniques.

Piano Maintenance & Repair

Repairing, adjusting and replacing the action and acoustic parts of electric, upright and grand pianos.

Basic Electronics

A comprehensive survey of electronics for the contemporary musician stressing functional analysis for the novice. A typical vacuum tube AB type audio amplification system will be systematically developed from input systems to speaker enclosure. General analysis of vibrato, reverberation and other ancillary systems. Typical problems, probable remedies. Recommended, but not required for students also anticipating electives in electronic music and recording.

Music Performance Electronics

Introduction to audio processing circuitry as it applies to music performance. Discussion of amplifiers, mixers, pedals, time delay effects, equalizers, passive and active circuit elements. Ohm's law, operational amplifiers, test equipment, and modifications to guitars and amplifiers. Each student constructs a project he can use in performance.

Music Synthesizer Electronics

Introduction to synthesizer circuitry. VCA, VCO, LFO, VCF, noise sources, envelope generators, envelope followers, sample and hold, phase locked loops and pitch to voltage conversion. Keyboard, joystick, ribbon, microphone, guitar, and microprocessor controllers. Mixers and patching. Each student builds his own synthesizer.

Studio Equipment Maintenance

A study of equipment maintenance in the modern recording studio. Routine preventative maintenance, equipment calibration, proof of performance, trouble shooting, and basic repair.

Theatrical Production

This course covers the staging of musical productions, selection of material, budgeting, organization of the production departments. Responsibilities related to sets/lights, costumes, auditions and rehearsal schedule. Study of various styles encountered in musicals.

Music Copying & Calligraphy

Fundamentals of music calligraphy. The techniques of part extraction and score layout. Use of music copying pens, choice of manuscript papers and types of ink. Survey of copying styles in both traditional and popular music. Class projects.

Music Education

Elementary Classroom Methods

Methods and materials for the instruction of general music in the elementary school. Preparation of lesson plans, formulation of principles for planning an entire musical curriculum. Selection and presentation of songs for the child voice; directed listening. Development of techniques for instruction in the notation of rhythm and melody.

3 credits

Secondary Classroom Methods

Administration and curriculum organization of instrumental, choral, and general music classes. Problems of the adolescent voice. Methods for the presentation of theory, history and appreciation classes. Special emphasis on organization and development of the school Stage Band. Coordination of the elementary and secondary music programs. Guest lectures.

3 credits

Vocal Methods and Materials 1, 2

For majors in Music Education. Performance of vocal and instrumental works suitable for public school music. Students participate in the conducting of selected works. Basic principles of singing; breathing, tone production, fundamentals of articulation, diction.

1 credit, each semester

Instrumental Methods & Materials

Survey of method books used for private and class instruction in the various instruments. Detailed examination of music for band, orchestra, and mixed ensembles at beginning, intermediate and advanced levels of performance.

Methods and Materials for Marching Band

Fundamental techniques for developing and training the high school marching band. Basics of marching, patterns of motion, planning, writing and rehearsing half-time performances. Students plan and write complete half-time projects.

Observation 1, 2

Assigned observation experience in the elementary and secondary schools of the greater Boston area. A minimum of 30 hours each semester (including classroom practice) is required.

Preparation and classroom presentation of representative class lessons.

1 credit, each semester

Practice Teaching 1, 2

Student teaching experience in elementary and secondary schools. A minimum of 15 weeks full-time practice teaching in assigned schools is required. Weekly discussion periods and individual conferences.

3 credits, each semester

Practice Teaching Seminar 1, 2

Critique and evaluation of problems encountered in student teaching assignments in the public schools. Supervised by the Music Education Department Chairman. Course projects directly related to situations in the field.

1 credit, each semester

Academics

English Composition/ Literature 1, 2

Techniques for the writing of concise and lucid themes as a means of developing clarity and coherence in discussion and essays. The analysis of assigned readings provides an introduction to the various literary forms. Emphasis on the meanings of communication.

Introduction to Poetry

This course will focus on the elements of poetry: the relationships between meaning and rhythm, meaning and sound, meaning and form. These topics will be explored in the context of a survey of poetry, both traditional and modern.

Writing Poetry 1

An intensive writing workshop (seminar format) in which the student concentrates on the writing of Poetry. Techniques include sonnet forms and syllable counts (Marriane Moore), the use of mythology (Elliot and Cummings), and the use of biblical sources (Wallace, Stevens, Eliot and Cummings).

Writing Poetry 2

A continuation of Writing Poetry 1 with an emphasis on the development of the individual style and craft acquired in the first semester. Both thematic and structural development will be stressed.

Theater of the Absurd

A study of twentieth century drama and playwrights, including the works of Beckett, Ionesco, Genet, Pinter, and Albee.

Creative Writing 1

An intensive workshop focusing on techniques and devices applicable to prose writing, such as point of view, character development, dialogue, interior monologue, psychological times.

Note: All academic courses carry 3 credits unless otherwise indicated.

Creative Writing 2

An intensive workshop intended to further develop skills learned in Creative Writing 1 and to explore more sophisticated techniques, devices, and concepts, such as epiphanies, development of non-rectilinear time, symbols, archetypes, etc.

Reviewing Records and Live Performances 1

Analysis of specific record and live performance reviews in such diverse periodicals as "Down Beat", "Stereo Review", "Rolling Stones", "The New York Times", and local newspapers in order to discover methods and techniques of reviewing. Discussion of the musician-oriented review and the reviewer's responsibility to the public and to his art. Students will write several different types of reviews directed at different audiences.

Reviewing Records and Live Performances 2

This course will concentrate on the actual writing of reviews every week. Students will broaden the scope and strengthen the stylistic devices previously learned. Each student will write reviews of different types of music.

Between Poetry and Music 1

An exploration of the relationship between modern poetry and contemporary American music. Comparison of the meaning of terms common to music and poetry. Examination of correlative musical-poetic devices and procedures for the creation of dramatic lyrical feeling. Student composition of poetry and music.

Between Poetry and Music 2

Continuation of studies begun in Between Poetry and Music 1. Emphasis on experimental writing as a means of understanding specific techniques. Analysis of music and poetry together, especially in larger works. Student projects.

The Later Novels of Hermann Hesse

A study of Siddartha, Steppenwolf, Narcissus and Goldmund, and The Glass Bead Game, relating these works to Hesse's interest in Freudian and Jungian psychology, Eastern religion and mysticism, and music.

The Satiric World of Evelyn Waugh

A study of the newly-discovered diary and the major novels of one of England's outstanding 20th Century writers.

Contemporary American Literature

Selected reading of the major prose, drama, and poetry of this century. The course will include a wide range of authors and styles, and will demonstrate the relationship of the writers to contemporary music.

Analysis of Song Lyrics

The course will focus on techniques for both the analysis and the construction of song lyrics. Among topics considered will be: metric patterns in language; the development of "neutral" rhythm patterns as a pivot point between lyrics and music; supportive elements of language; supportive relationships between language and music; the development of clear, specific images; simplicity of presentation.

History of Art 1,

A comparative survey of the development of painting, architecture and sculpture from ancient times to the present. Intensive audio-visual analysis of representative works.

1 credit

History of Art 2

Late Gothic to Contemporary Periods. European art from the end of the Middle Ages through the Renaissance, Mannerism, the Baroque, Rococo, Neoclassicism, Romanticism, Realism, Impressionism, Post-Impressionism, Abstraction. American art from the Colonial period to today. Slide lectures and Museum viewing.

1 credit

History of Western Civilization 1

A survey of the history of Western man from the time of the Ancient Greeks (1000 B.C.) to the Renaissance (1660 A.D.). Introduction to the methods and aims of historical studies. Examinations of the major cultures within the context of their chronological position in history.

History of Western Civilization 2

A survey of the history of Western man from 1660 A.D. to the present. Methods and aims of historical studies. Examinations of the major cultures within the context of their chronological position in history.

U.S. Urban History

A survey of the growth of American cities emphasizing the development of a distinctively urban culture between 1830 and the present, including the emergence of labor movements, and the changing social functions of music and the arts.

Recent and Contemporary History

Seminar on selected topics of historical significance of the 20th Century. Topics include: origins of the world wars, problems of nuclear proliferation, the Cold War, Vietnam.

Israel and the Old Testament

The development of the unique Jewish perception of history as seen by the Hebrew prophets. An overview of the Old Testament as a reflection of the culture of ancient Israel. The spiritual awareness of history that contributed to the survival of the Jews.

Freedom and Authority in America

An introduction to U.S. Social History which focuses on key periods of conflict in the 19th and 20th centuries, including the industrial revolution, slavery and abolition, the Depression, and the war in Vietnam.

Ideologies and Modern Politics

An examination of the relationship between ideology and pragmatism in 20th Century governments. Topics include Fascist Italy, Nazi Germany, Soviet Russia, Communist China; USA, Britain, France.

International Relations

A study of the elements of national power, the tasks of diplomacy, and the use of international law. Student reports include case studies on the resolution of international differences, both historical and current.

Development of Political Thought

A survey of political thought from the time of the Greek city-state to the modern totalitarian regimes. Class discussions focus on the historical context and theoretical content of such important figures as Aristotle, Augustine, Machiavelli, Locke, Marx, and Hitler.

Christianity and the Roman Empire

A history of the first three centuries of Christianity, from the life of Jesus to the conversion of Constantine. Topics include: the mission of St. Paul, organization and discipline in the primitive church, the evolving position of Christianity in the Roman Empire, from persecuted sect to favored religion.

French 1, 2

Grammar and composition. Basic reading selections. Emphasis on pronunciation and foundational conversational training.

French 3, 4

Continuation and expansion of French 2. More advanced grammar, composition, and conversation. Reading selections.

Spanish 1, 2

Basic grammar, composition, and reading selection. Emphasis on pronunciation and conversational Spanish.

Acoustics of Music 1, 2

Study of the general nature of the production, transmission, and effects of vibrational phenomena. Resonance, harmonic partials, and the relation of acoustical laws to the structure of intervals, scales, and tuning systems. Lectures, demonstrations, and problems.

Urban Sociology in America

A survey of American Sociology which uses urban material to encourage students to explore their own surroundings, while employing the tools of sociological analysis.

Philosophy of Education 1, 2

A survey of the history of Western Philosophy. Study of representative works in the field. The second semester covers the development of educational thought, methods of instruction, development of curricula, objectives of education, and the correlation of philosophies in music and education.

Philosophy of Religion

The historical and interpretative examination of the major religions of man, with emphasis on their social setting and ethical principles.

Ethics

The historical and comparative study of ethical theory. A study of the principal schools of ethical theory, and the problems of personal and social behavior.

Introduction to Logic

The processes and presuppositions of reflective thinking. The procedure of philosophical analysis, and the nature of formal reasoning.

Aesthetics

An inquiry into the meaning of art and beauty. The function and understanding of symbols in the world of sight and sound.

Oriental Philosophy: Hinduism

A philosophical inquiry into the cosmology and psychology of the world's oldest living religion. Focus upon the BHAGAVAD GITA and the Hindu notions of evolution, reincarnation, maya, Atman-Brahman, Kundalini, the Chakra system, the various yogas, and enlightenment. Some reference to the symbolism of Hindu mythology and art, and also to the distinction between esoteric and exoteric teachings.

Oriental Philosophy: Buddhism

An inquiry into the basic ideas of Buddhism, considered as a metaphysical, religious, and moral philosophy. Reference to the life of Gautama Buddha, the Four Noble Truths, the Eight-Fold Path, and the Buddhist notions of Suchness, Emptiness, Nirvana, and Enlightenment.

Oriental Philosophy: Taoism and Zen

An inquiry into the philosophical, moral, and religious significance of Taoism and Zen Buddhism, considered as probably the most radical and "mind-blowing" systems of thought a Western man or woman can encounter.

References to the Tao as both a metaphysical fact and a way of life; the concepts of Yin and Yang; the limitations of logical and dualistic thinking; Zen as both a meditative art and a method of right living. Some reference to the history of Zen (in China, Japan, and America), Lao Tzu's TAO TE CHING, and the writings of the Zen masters.

General Psychology

A survey of the history, theory, and application of general psychology. The study of human behavior, factors in psychological development, methods of measurement.

Child and Adolescent Psychology

The effect of learning principles upon child and adolescent behavior, application of educational problems to musical growth, motivation in learning, and the relation of social psychology to classroom situations.

Social Psychology 1, 2

The effect of social institutions on individual behavior, and the reciprocal effect of the individual upon society. Interpersonal relations, motivation, group development, and the development of attitudes and values.

Theories of Personality

Approaches to the study of human personality as initiated by Freud, Adler, Skinner and more recent theories of Frankl, Kelly, Rogers and others. Issues to be discussed include human motivation, abnormal behavior and free will vs. determinism.

Foundations of Creativity

An investigation into the psychological and philosophical sources of creativity, and its phenomenology. The approach will be inter-disciplinary in that attention will be given to clinical aspects of creativity. Emphasis will not be on bulk absorption of facts but on the synthesizing of self through dialogue which will develop around the themes generated.

Introduction to Jungian Psychology

A philosophical inquiry into the psychology of C.G. Jung, with reference to his friendships with Freud and Hesse, and his concepts of Individuation, Archetypes, and the Collective Unconscious. Special attention to Jung's reflections upon Anima-Animus, the Shadow, Mandala symbolism, and life after death. Some reference, also, to Jung's analysis of dreams, neurosis, psychotic fantasies, and religious symbolism.

Jungian Psychology and Philosophical Mysticism

The mystical side of Jungian thinking is a field rich in possible parallels with other systems of thought. We shall seek these parallels in a comparative analysis of Jungian psychology and Taoism, Buddhism, Astrology, and the Qabalah. In particular, we shall correlate Jungian archetypes with the signs and planets of the Zodiacal Mandala, and with the paths and spheres of the Qabalistic Tree of Life. (AC 531 desired, but not a prerequisite.)

Jungian Psychology and the Path of Knowledge

An in-depth comparative analysis of Jung's concept of Individuation (Self-Realization upon the Path of Knowledge) and the major arena of the Tarot, considered as Jungian archetypes symbolizing stages upon the path of enlightenment and liberation. The Journey of the Fool will be seen to be the journey of us all, from foolishness to wisdom, as we struggle with the tension of opposites: Anima-Animus, Ego and Shadow, Life and Death, Consciousness and the Unconscious.

Summer Studies; Special Instruction

The Berklee 7-week Summer Evaluation Program is of particular interest to high school students who desire to determine their potential for a successful career in music. While in high school, the student is required to divide his energies over a broad and diversified range of subject areas, and consequently is unable to devote concentrated time to the study of music. This special summer program offers total immersion in a broadly-based music study curriculum that provides a unique opportunity for the evaluation and development of individual capacities essential to the realization of musical competence.

The Berklee College of Music seven-week Evaluation Program is of great importance to parents, teachers, and guidance counselors who need assistance in determining the true scope of a student's musical capabilities prior to enrollment in a formal program of education in music. The curriculum is designed to assess the musical talent, capacity and growth potential of the student contemplating music as a vocation or field of serious study. Special techniques and testing procedures measure student aptitude and strength of talent. You are eligible to enter the Evaluation Program if you are at least sixteen years old and have some musical background. Studies consist of Private Instrumental Instruction, Theory/Arranging, Harmony, Ear Training, Instrumental Labs and Ensembles. A complete record of progress is maintained, and an evaluative report on each student is prepared at the end of the term.

The Berklee 7-Week Summer Comprehensive Program is open to college students, teachers, and professional musicians who wish to expand their knowledge of the field of modern music. This program offers specialized study of practical, effective skills which may be applied to broad areas of musical activity. Teachers are shown advanced theory concepts and modern methods for developing and training jazz ensembles, and professional musicians are provided with specific techniques for the improvement of their musical facility. The curriculum includes Private Instrumental Instruction, Theory/Arranging, Harmony, Ear Training, Instrumental Labs and Ensembles.

12 Week Summer Full-Credit Program is an accelerated program where students can earn the equivalent of one full-semester credit in music subjects. Admission procedures for continuing Degree or Diploma candidates are the same as those required of regular full-time students. With few exceptions the curriculum is identical to that offered during the regular school year.

International Jazz Program

The tremendous impact of Berklee's international program has been felt in every corner of the world from Kumasi, Africa to Hong Kong and Malaysia. In cooperation with the United States Information Agency and the Music Committee of the President's "People to People" Program, Berklee is in constant correspondence with jazz devotees from all over the world, supplying information and answering individual questions and problems about jazz. Tape recordings of original compositions, scores and parts, and educational materials have been sent by Berklee to 43 countries.

As the international educational center for the study of jazz, Berklee's distinguished roster of graduates include representatives of six continents, many of whom return to their native land to fill the great need for teachers in this modern idiom.

Alma Berk, Director of Public Information, with foreign students from Rhodesia, Japan and Nigeria

The Berklee Performance Center

The Berklee College of Music's new Performance Center has already taken its place as one of Boston's major performance halls. Housed in the historic, newly-renovated Fenway Theater, the Performance Center seats 1227 in its main hall. The Berklee Performance Center also contains classrooms, rehearsal halls, a music library for performing groups and a professionally-equipped recording studio for direct pick-up from the performance hall.

The Berklee Performance Center permits faculty and student groups to perform in a major concert hall in one of America's foremost cities. More than one hundred faculty/student concerts are presented annually, encompassing a wide variety of

Buddy Rich and his Killer Force

Cleo Laine and Johnny Dankworth

performance styles. All events at the Performance Center are open to the public, and all groups appearing there are publicized extensively by the College's Office of Public Information. The College also provides a more informal Recital Hall in which approximately 400 student concerts and recitals are scheduled each year.

The Berklee Performance Center also presents a wide variety of recognized performing artists. The College's own *Jazz Masters Concert Series* features outstanding jazz performers, including the orchestras of Buddy Rich, Woody Herman, Stan Kenton, Thad Jones and Mel Lewis, the Duke Ellington Orchestra, Kenny Burrell, Art Farmer, John Lewis and Hank Jones, Phil Woods, the Gary Burton Quartet, and others. Concert producers also bring a number of artists to the Berklee concert hall stage, including recent performances by Dizzy Gillespie, Cleo Laine, Gato Barbieri, Herb Ellis, Dexter Gordon, Weather Report, the Crusaders, Charles Aznavour, Jean-Luc Ponty, Marian McPartland, Roy Eldridge, Ron Carter, Lou Rawls, and Stephan Grappelli.

Community Service Programs

Berklee has been responsive to the needs of the surrounding community in Boston through a broad Community Services Program. In its Secondary School Tutorial Program, Berklee students over the last few years have provided Boston inner-city high school students with free music instruction to assist in the preparation for future higher education in music.

In the College's Prison Tutorial Program of individual instruction and ensemble performance, volunteer students have worked in cooperation with the Massachusetts Department of Correction to provide an innovative program of instruction for inmates. In the Community Services Ensemble Program, Berklee performing groups have visited numerous organizations for veterans and for the impoverished, elderly, and infirm to enrich their lives with a series of free clinic/concert programs.

These programs, which have provided many Berklee students the opportunity for a neighborhood involvement that is consistent with and relevant to their professional career training, are supplemented by the numerous concerts programmed by the College annually. Most of these concerts are open free of charge to the public and feature Berklee students as participants.

Berklee students instruct local high school students as part of the College's Community Service Program

Personal Supervision and Counseling

Curriculum Counseling for all students is the responsibility of the Office of Curriculum Counseling. Counselors in this office supervise testing and placement relative to the first year of study, and provide curriculum guidance and advice for all students. Students are assisted in the selection of vocational objectives through evaluation of individual progress, and in the review of their choice of major field.

The Tutorial Office is the principal source of assistance for students experiencing difficulty with course material or any other pertinent aspect of their college work. Tutors are made available on a regular or occasional basis at no charge.

Personal Counseling is also provided for students who wish to discuss problems of a personal nature. Appointments with a counselor may be arranged through the Administrator or the Office of the Dean of Students.

Progress Reports The faculty of Berklee is concerned with the specific progress of each student. At the end of each eight-week period, all instructors are required to advise the Administration regarding students whose mid-term record indicates a need for tutoring or other remedial assistance. Where appropriate, these reports are forwarded to parents, and the student is notified of the necessity for improving his academic standing in specific courses. The Tutorial Division of the Office of Student Services is the principal source of additional assistance in such matters.

Financial Assistance

The Berklee College of Music Financial Aid Program includes the Federal Supplemental Educational Opportunity Grants, National Direct Student Loans and the College Work-Study Program. To apply for consideration for these programs it is necessary to submit a Financial Aid Form (FAF) through the appropriate College Scholarship Service Office each year, preferably by March 31st. Financial Aid Forms are available from high schools and colleges.

The funds in the three Federal programs administered by Berklee College of Music are limited and awards are based on need as determined by the College Scholarship Service and Federal regulations. The actual amount of each award is governed by the number of qualified applicants who share in the overall amount allocated to the College by the Federal government.

Programs available through other sources are the Basic Educational Opportunity Grant Program, the Guaranteed Student Loan Program, State Scholarships or Grant Programs, and community scholarship, grant and loan programs.

Students who do not have a baccalaureate degree may apply for a Basic Educational Opportunity Grant. The Financial Aid Form (FAF) may also be used as the application for a Basic Educational Opportunity Grant or a separate application, available from high schools and colleges, may be utilized.

The Guaranteed Student Loan Program is generally available to students from participating banks and lending institutions in the state in which you are a legal resident. Information and applications may be obtained from your local bank or lending institution.

Many states conduct a scholarship or grant program for residents in need of financial assistance. Although the Financial Aid Form (FAF) may be used to apply for a state scholarship or grant in many states, one should contact the State Scholarship Office in his state for specific information.

There are numerous scholarship, grant and loan programs available in many communities. High school guidance offices and local civic, social and community organizations should be contacted for information.

Should you desire a financial aid packet or further information, please write to:

Office of Financial Aid
Berklee College of Music
1140 Boylston Street
Boston, Massachusetts 02215

Scholarships and Awards

The General Scholarship Fund. A general scholarship fund is maintained by the College for students with outstanding musical ability who are in need of financial assistance. The Financial Aid Form of the College Scholarship Service serves as the basic application for the scholarship program.

The Berklee Annual Fund. Proceeds from annual contributions from alumni, parents, corporations, and friends are allocated in part to the College's General Scholarship Fund.

The Scholarships and Awards indicated below are presented by the Faculty Scholarship Committee to upper class students in recognition of superior academic achievement, outstanding musicianship, and concert participation.

The Berklee Jazz Masters Series. Proceeds from this concert series, sponsored by the College, are awarded annually in the names of such artists as Woody Herman, Buddy Rich, Art Farmer, Duke Ellington, Hank Jones, Laurindo Almeida and Phil Woods as scholarships to outstanding students.

Berklee Faculty Association Awards. A series of awards presented annually by the faculty in recognition of outstanding musicianship.

The Joe Venuti Memorial Scholarship Fund. An annual award to encourage and assist outstanding student violinists.

The Richard Levy Scholarship Fund. A permanent trust established in 1967, the proceeds from which are awarded to majors in Composition according to financial need and proven ability.

The Harris Stanton Scholarship Fund. A permanent trust established in 1971, the proceeds from which are awarded to outstanding Guitar majors.

Youth Concerts at Symphony Hall Trust Fund. A permanent trust to fund an annual award for outstanding musicianship.

The Lennie Johnson Scholarship Fund. A permanent trust established in 1973, the proceeds from which are awarded to needy and deserving students.

The Peter Kaleta Scholarship Fund. A permanent trust established in 1976, the proceeds from which are awarded to needy and deserving students.

Teaching fellowships are offered each year to qualified Juniors and Seniors. Applicants for this type of assistance must be at least 21 years of age and have had extensive musical training and/or experience.

General Information

Facilities The physical plant of Berklee College of Music is located in the heart of the cultural Back Bay area of Boston. Two fine and substantial physical structures house all classrooms and rehearsal studios, private teaching and practice studios, recital hall, book store, administrative offices and various student service and residence facilities. Three electronic keyboard rooms, two professional multi-track recording studios, a completely equipped electronic synthesizer studio, a film scoring and editing lab and a new tape-response laboratory for programmed instruction in ear training provide students with excellent teaching aids and the opportunity for self-instruction. The Berklee Performance Center, a 1200 seat concert hall, features all the modern lighting, sound and projection systems desirable for a contemporary performance center.

A Library is maintained which contains a significant collection of scores, reference volumes, miscellaneous anthologies, recordings, works on the history and theory of music, and works relating to the academic courses. Berklee students are eligible for a Boston Public Library card which gives them access to one of the nation's foremost music collections. The Boston Public Library is located within six blocks of the school.

The Berklee Ensemble Library contains works by noted professional arrangers, as well as those by faculty members and outstanding students. All musical styles are represented. By performing material from the libraries of Woody Herman, Buddy Rich, Louis Bellson, Thad Jones/Mel Lewis, Duke Ellington, and others, students become acquainted with a vast variety of material which greatly assists in the successful transition from the classroom to a professional career.

Dormitory Residence is required of all male and female Freshmen and Sophomores under twenty-one years of age unless they are commuting to school from their own homes. Dormitories for students are maintained by the College. Room and board expenses are given under "Tuition and Fees" in this catalog. Detailed information regarding accommodations and rates may be obtained by writing directly to Housing Director, Berklee College of Music.

Placement Berklee undergraduates are encouraged to gain practical experience and professional contacts are made through faculty members, prominent visiting musicians, and professional groups seeking replacements. Students' schedules may be adjusted, when practicable, to permit them to undertake professional engagements.

A complete placement service is maintained for graduates in Music Education. Information regarding the availability of new teachers may be obtained by writing:

Division of Teacher Placement

Berklee College of Music
1140 Boylston St.
Boston, Massachusetts 02215

Veterans Berklee College of Music is approved by the Massachusetts Board of Higher Education to provide education in music to service men and women under the GI Bill of Rights.

The function of Berklee's Veterans Counseling Service is to provide information regarding veterans' programs, local and national, and to interpret the policies and procedures of Berklee as related to veterans.

Mail to dormitory residents may be addressed to the College, but all other students should plan on having mail directed to their Boston address. Although mailbox facilities are provided, the School cannot assume responsibility for the delivery of incoming mail to non-dormitory residents.

Duke Ellington congratulates Berklee graduate

Left to Right: Thad Jones, Lawrence Berk, George Wein, John Hammond, and Mel Lewis

General Regulations

Conduct Students who fail to comply with the regulations of Berklee College of Music may be asked to withdraw from the college any time during the school year. Behavior unbecoming a student of the college is considered grounds for dismissal.

Prompt and regular attendance is required in each course. The only acceptable excuse for absence from either a class or a private lesson is illness, accident, or some other comparable emergency of a serious nature.

Whenever a student is absent, it is his responsibility to arrange with each of his instructors to make up the work missed. A student who is consistently absent from classes may be required to withdraw from the course.

Leave of absence If, because of financial, family, or health reasons, a student is required to absent himself for a short period of time, but with the expectation of returning, he should apply for a leave of absence.

Leaves of absence for professional reasons may be granted by the Administration with the approval of the Office of the Registrar. Students should secure permission before making any contract or commitment to persons or organizations outside the college. In no case should the time of absence or absences exceed a total of two weeks per semester.

Withdrawal and Refund All students who withdraw from Berklee must submit written notification to the Office of the Registrar before any refunds will be made. Refunds are made on the basis of assessing 20% of the semester's tuition per week (or portion thereof) of attendance. Students withdrawing before the end of the fourth week of the semester are entitled to a refund of part of their tuition. After the fourth week, no refunds will be made. Absence from classes does not reduce a student's financial obligation nor constitute withdrawal.

During a 12-week summer semester, refunds are made on the basis of assessing 25% of the semester's tuition per week (or portion thereof) of attendance. Therefore, no refunds are made after the third week of school.

During a 7-week summer semester, refunds are made on the basis of assessing 33 1/3% of the semester's tuition per week (or portion thereof) of attendance. Therefore, no refunds are made after the second week of school.

Further, the College requires the written consent of a parent or guardian of any student under 21 years of age who desires an approved withdrawal. Dorm residents with an approved withdrawal receive only a meal allowance refund for the remaining weeks in the contract term.

Students forced to withdraw for medical reasons may, upon presentation of verification of their disability, receive a pro-rated adjustment of tuition for the semester in which they are registered and, if applicable, a pro-rated adjustment of the dorm fee for the remaining weeks in the contract term. No adjustment is made for temporary absence, nor is any refund made if a student is suspended, or dismissed, or leaves school without formally withdrawing.

Change of Program Changes of program must be approved subsequent to a formal petition for change by the student. Requests must be made prior to the opening of the semester during which the change is to take place. Change of program includes the transfer from Diploma to Degree, or vice-versa. Petitions for change are available in the Office of the Registrar or Curriculum Counselor's Office.

Examinations Credit will not be given for a course unless all scheduled Mid-Term and Final examinations are taken. In the event of absence from an examination, a make-up exam must be taken at the convenience of the instructor. A grade of "IncF" will be recorded in all classroom courses (and of "NC" for instrumental studies) where incomplete examinations are not made up within the first two weeks of the following semester. Exception to the ruling is possible only if the course instructor petitions for special consideration on behalf of the student.

A fee of \$5 must be paid for all make-up examinations, whether they be lecture course, laboratory, or instrumental proficiency examination.

In all cases, students unable to be present for an examination must so notify the faculty member in charge of the examination. Notification must be given on or prior to the date of the examination. If no such notification is given, a grade of "NC" (or "F") is automatically recorded for the course.

Grades for completed courses are evaluated according to the following system:

letter grade	% equivalent	grade point index
A	93—100	4.0
A-	90—92	3.7
B+	87—89	3.3
B	83—86	3.0
B-	80—82	2.7
C+	77—79	2.3
C	73—76	2.0
C-	70—72	1.7
D	60—69	1.0
F (failing)	below 60	0.0

W Withdrew
 INC Incomplete
 NC No Credit
 NA Not Averaged

Semester Grades are recorded on the student report cards and permanent grade-report forms in accordance with the above value scale.

Scholastic Probation Students with an *overall* Grade Point Average below 2.0 at the completion of a semester will be placed on general probation the following semester. In order to be removed from probation, a minimum GPA of 2.0 must be earned by the end of the probation semester.

It is further necessary to maintain a Grade Point Average of 2.7 in *concentrate* courses within a chosen major field. Students with a GPA below 2.7 in concentrate courses for two consecutive semesters will be required to select an alternate major.

Any student on general probation who becomes liable for further probation in a subsequent semester may be required to withdraw from the college.

Scholastic Suspension Any student required to withdraw from the college because of scholastic reasons must remain out of the college for one regular semester before readmission may be considered.

After readmission following scholastic suspension, the student will remain on probation until the requisite GPA's have been earned at the completion of the semester.

Expulsion Failure to satisfy the terms of probation after readmission following scholastic suspension will result in permanent expulsion from the college.

Dean's List Students averaging honor grades for any given semester are placed on the Dean's List. An overall Grade Point Average of 3.7 and above entitles to First Honors: 3.3-3.6, Second Honors.

Graduation Requirements Candidates for the Degree must complete a minimum of 134 credits (139 for Music Education majors).

Candidates for the Diploma must complete a minimum of 112 credits.

All candidates must complete proficiency requirements as specified for their principal instrument.

All candidates seeking to graduate in a specific major field must complete a required project in the chosen area of concentration, as described and approved by the Department Chairman. For Music Education majors, this will include completion of all observation and student teaching requirements.

Graduation requirements unique to each program and major are published periodically by the college.

A Student Handbook is distributed to all students during Registration periods. It is a comprehensive statement of college policy and contains more complete information regarding school regulations.
